PRAYER

The following prayer was offered by Rabbi Richard Birnholz, Congregation Schaarai Zedek, Tampa:

Almighty God, as the Florida State Senate gathers this morning with a clear vision of what has made our great state a place of opportunity, may we always remember that it is from you that this vision has become a part of us.

We ask, O God, that you bestow your blessings upon all Floridians—from those in our midst who live the American Dream to those in our midst for whom that dream has not yet come true; from those who serve in the highest offices to those who toil unnoticed and unknown.

Being elected to serve carries great honor. It also carries, God, unusual responsibility. Help our lawmakers to realize, that as important as it is to try and apportion money, power, and service, it is just as important to do so with compassion. Help them to appreciate the gift of diversity, which gives character to our cities and our towns. Let them see beyond the needs of today, so that what they do now will bring good to our children tomorrow. Let the length of their vision extend beyond self-interests and their own districts, to the greater needs of the entire state. We know, O God, that it is a great honor to win, but let us know, O God, through collegiality, that it is also a great honor to be nice to one another.

Comfort them with the knowledge that even though they cannot know the ultimate effects of the actions they take, they can rest secure in their decisions if they are made with your blueprint as the basis for their laws. We thank you for all the blessings that you bestow upon us as together we say, Amen.

PLEDGE

Senate Pages Lewis Albright of Apopka; Elisabeth Thomas of Orlando; Andrew Carlton Ferguson of Tallahassee; and Hannah Hodge of Plant City, led the Senate in the pledge of allegiance to the flag of the United States of America.

By Senator Alexander—

SR 1990—A resolution honoring Samuel Bennett as the 2005 Florida Teacher of the Year.

WHEREAS, Mr. Bennett's love for his students and fellow teachers extends far beyond the classroom in that he organized efforts to help staff members whose homes suffered damage or were destroyed in the 2004 hurricanes and organized the school's Single Parent Association, a group that offers resources for single-parent households, the development of which earned him a Disney Teacherrific Award, and

WHEREAS, Samuel Bennett, known to his students as "Mr. B," was, for his outstanding efforts, named 2005 Polk County Teacher of the Year after being selected from five finalists from the ranks of 177,000 public school teachers for the state title and is currently one of four finalists for the title of National Teacher of the Year, NOW, THEREFORE,

Be It Resolved by the Senate of the State of Florida:

348.0004 Purposes and powers.—

(9) The Legislature declares that there is a public need for rapid construction of safe and efficient transportation facilities for travel within the state and that it is in the public's interest to provide for public-private partnership agreements to effectuate the construction of additional safe, convenient, and economical transportation facilities.

(a) Notwithstanding any other provision of the Florida Expressway Authority Act, any expressway authority*, transportation authority, bridge authority, or toll authority established under this part or any other statute* may receive or solicit proposals and enter into agreements with private entities, or consortia thereof, for the building, operation, ownership, or financing of ~~expressway~~ authority transportation facilities or new transportation facilities within the jurisdiction of the ~~expressway~~ authority. An ~~expressway~~ authority is authorized to adopt rules to implement this subsection and shall, by rule, establish an application fee for the submission of unsolicited proposals under this subsection. The fee must be sufficient to pay the costs of evaluating the proposals. An ~~expressway~~ authority may engage private consultants to assist in the evaluation. Before approval, an ~~expressway~~ authority must determine that a proposed project:

1. Is in the public's best interest.

2. Would not require state funds to be used unless the project is on or provides increased mobility on the State Highway System.

3. Would have adequate safeguards to ensure that no additional costs or service disruptions would be realized by the traveling public and *residents* ~~citizens~~ of the state in the event of default or the cancellation of the agreement by the ~~expressway~~ authority.

For projects on the State Highway System, the department may use state resources to participate in funding and financing the project as provided for under the department's enabling legislation.

(c) The ~~expressway~~ authority may request proposals for public-private transportation projects or, if it receives an unsolicited proposal, it must publish a notice in the Florida Administrative Weekly and a newspaper of general circulation in the county in which it is located at least once a week for 2 weeks~~,~~ stating that it has received the proposal and will accept, for 60 days after the initial date of publication, other proposals for the same project purpose. A copy of the notice must be mailed to each local government in the affected areas. After the public notification period has expired, the ~~expressway~~ authority shall rank the proposals in order of preference. In ranking the proposals, the ~~expressway~~ authority shall consider professional qualifications, general business terms, innovative engineering or cost-reduction terms, finance

plans, and the need for state funds to deliver the proposal. If the ~~expressway~~ authority is not satisfied with the results of the negotiations, it may, at its sole discretion, terminate negotiations with the proposer. If these negotiations are unsuccessful, the ~~expressway~~ authority may go to the second and lower-ranked firms, in order, using the same procedure. If only one proposal is received, the ~~expressway~~ authority may negotiate in good faith, and if it is not satisfied with the results, it may, at its sole discretion, terminate negotiations with the proposer. Notwithstanding this paragraph, the ~~expressway~~ authority may, at its discretion, reject all proposals at any point in the process up to completion of a contract with the proposer.

(d) The department may lend funds from the Toll Facilities Revolving Trust Fund, as outlined in s. 338.251, to public-private partnerships. To be eligible a private entity must comply with s. 338.251 and must provide an indication from a nationally recognized rating agency that the senior bonds for the project will be investment grade or must provide credit support, such as a letter of credit or other means acceptable to the department, to ensure that the loans will be fully repaid.

(e) Agreements entered into pursuant to this subsection may authorize the public-private entity to impose tolls or fares for the use of the facility. However, the amount and use of toll or fare revenues shall be regulated by the ~~expressway~~ authority to avoid unreasonable costs to users of the facility.

(f) Each public-private transportation facility constructed pursuant to this subsection shall comply with all requirements of federal, state, and local laws; state, regional, and local comprehensive plans; the ~~expressway~~ authority's rules, policies, procedures, and standards for transportation facilities; and any other conditions that the ~~expressway~~ authority determines to be in the public's best interest.

(g) An ~~expressway~~ authority may exercise any power possessed by it, including eminent domain, to facilitate the development and construction of transportation projects pursuant to this subsection. An ~~expressway~~ authority may pay all or part of the cost of operating and maintaining the facility or may provide services to the private entity for which it receives full or partial reimbursement for services rendered.

(h) Except as herein provided, this subsection is not intended to amend existing laws by granting additional powers to or further restricting the governmental entities from regulating and entering into cooperative arrangements with the private sector for the planning, construction, and operation of transportation facilities. *Use of the powers granted in this subsection may not subject a statutorily created expressway authority, transportation authority, bridge authority, or toll authority, other than one statutorily created under this part, to any of the requirements of this part other than those contained in this subsection.*

The Department of Transportation shall include the selected projects for funding in the tentative work program developed pursuant to s. 339.135.* All contracts for actual construction of projects authorized by this subsection must include a provision encouraging employment of participants in the welfare transition program. The goal for employment of participants in the welfare transition program is 25 percent of all new employees employed specifically for the project, unless the Department of Transportation and the Florida Seaport Transportation and Economic Development Council demonstrate that such a requirement would severely hamper the successful completion of the project. In such an instance, Workforce Florida, Inc., shall establish an appropriate percentage of employees that must be participants in the welfare transition program. The council and the Department of Transportation are authorized to perform such acts as are required to facilitate and implement the provisions of this subsection*, including the funding of approved projects by the use of other state funding programs, local contributions from seaports, and the creative use of federal funds*. (d) For seaport intermodal access projects that involve the dredging or deepening of channels, turning basins, or harbors, or the construction or rehabilitation of wharves, docks, or similar structures, funding shall require at least a 25-percent match of the funds received pursuant to this subsection. Matching funds shall come from any port funds, federal funds, local funds, or private funds.

Such revenues may be assigned, pledged, or set aside as a trust for the payment of principal or interest on bonds, tax anticipation certificates, or any other form of indebtedness issued by the Division of Bond Finance at the request of the Department of Transportation pursuant to the State Bond Act. However, such debt does not constitute a general obligation of the state. This state covenants with holders of such revenue bonds or other instruments of indebtedness issued under this subsection that it will not repeal or impair or amend this subsection in any manner that will materially and adversely affect the rights of holders so long as bonds authorized by this subsection are outstanding. Any revenues that are not pledged to the repayment of bonds as authorized by this subsection may be used for purposes authorized under the Florida Seaport Transportation and Economic Development Program. This revenue source is in addition to any amounts provided for and appropriated in accordance with s. 311.07 and subsections (3) and (4). The Florida Seaport Transportation and Economic Development Council shall submit to the Department of Transportation a list of strategic transportation, economic development, and freight mobility projects that contribute to the economic growth of the state and that have been approved pursuant to s. 311.09(5)-(9), or that have been approved for seaport intermodal access projects identified in the 5-year Florida Seaport Mission Plan as provided in s. 311.09(3). The council and the Department of Transportation shall mutually agree upon the prioritization and selection of projects for funding. The Department of Transportation shall include the selected projects for funding in the tentative work program developed pursuant to s. 339.135. The council and the Department of Transportation may perform such acts as are required to facilitate and implement the provisions of this subsection, including the funding of approved projects by the use of other state funding programs, local contributions from seaports, and the creative use of federal funds. To better enable the ports to cooperate to their mutual advantage, the governing body of each port may exercise powers provided to municipalities or counties in s. 163.01(7)(d), subject to the provisions of chapter 311 and special acts, if any, pertaining to the port. The use of funds provided under this subsection is limited to eligible projects listed in this subsection. Section 311.07(4) does not apply to any funds received pursuant to this subsection.

(6)(a)~~(5)(a)~~ Except as provided in paragraph (c), the remainder of such revenues must be deposited in the State Transportation Trust Fund.

(b) The Chief Financial Officer each month shall deposit in the State Transportation Trust Fund an amount, drawn from other funds in the State Treasury which are not immediately needed or are otherwise in excess of the amount necessary to meet the requirements of the State Treasury, which when added to such remaining revenues each month will equal one-twelfth of the amount of the anticipated annual revenues to be deposited in the State Transportation Trust Fund under paragraph (a) as determined by the Chief Financial Officer after consultation with the revenue estimating conference held pursuant to s. 216.136(3). The transfers required hereunder may be suspended by action of the Legislative Budget Commission in the event of a significant shortfall of state revenues.

(c) In any month in which the remaining revenues derived from the registration of motor vehicles exceed one-twelfth of those anticipated annual remaining revenues as determined by the Chief Financial Officer after consultation with the revenue estimating conference, the excess shall be credited to those state funds in the State Treasury from which

the amount was originally drawn, up to the amount which was deposited in the State Transportation Trust Fund under paragraph (b). A final adjustment must be made in the last months of a fiscal year so that the total revenue deposited in the State Transportation Trust Fund each year equals the amount derived from the registration of motor vehicles, less the amount distributed under subsection (1). For the purposes of this paragraph and paragraph (b), the term "remaining revenues" means all revenues deposited into the State Transportation Trust Fund under paragraph (a) and subsections (2) and (3). In order that interest earnings continue to accrue to the General Revenue Fund, the Department of Transportation may not invest an amount equal to the cumulative amount of funds deposited in the State Transportation Trust Fund under paragraph (b) less funds credited under this paragraph as computed on a monthly basis. The amounts to be credited under this and the preceding paragraph must be calculated and certified to the Chief Financial Officer by the Executive Office of the Governor.

1. Pairing teachers for the purpose of staff development.

2. Pairing new teachers with veteran teachers.

3. Reducing turnover among new teachers.

4. Pairing teachers who are teaching out-of-field with teachers who are in-field.

3. At least one member of the team must be teaching in-field.

4. The teachers must be trained in team-teaching methods within 1 year after assignment.

The use of strategies implemented as outlined in this subsection meets the letter and intent of the Florida Constitution and the Florida Statutes which relate to implementing class-size reduction and this subsection applies retroactively. A school district may not be penalized financially or otherwise as a result of the use of any legal strategy, including, but not limited to, those set forth in subsection (3) and this subsection.

Section 17. Subsection (3) of section 1003.05, Florida Statutes, is amended to read:

1003.05 Assistance to transitioning students from military families.—

(3) Dependent children of active duty military personnel who otherwise meet the eligibility criteria for special academic programs offered through public schools shall be given first preference for admission to such programs even if the program is being offered through a public school other than the school to which the student would generally be assigned ~~and the school at which the program is being offered has reached its maximum enrollment~~. If such a program is offered through a public school other than the school to which the student would generally be assigned, the parent or guardian of the student must assume responsibility for transporting the student to that school. For purposes of this subsection, special academic programs include ~~charter schools,~~ magnet schools, advanced studies programs, advanced placement, dual enrollment, *Advanced International Certificate of Education,* and International Baccalaureate.

Section 18. Paragraph (c) of subsection (1) of section 1003.21, Florida Statutes, is amended to read:

1003.21 School attendance.—

(c) A student who attains the age of 16 years during the school year is not subject to compulsory school attendance beyond the date upon which he or she attains that age if the student files a formal declaration of intent to terminate school enrollment with the district school board. The declaration must acknowledge that terminating school enrollment is likely to reduce the student's earning potential and must be signed by the student and the student's parent. The school district must notify the student's parent of receipt of the student's declaration of intent to terminate school enrollment. *The student's guidance counselor or other school personnel must conduct an exit interview with the student to determine the reasons for the student's decision to terminate school enrollment and actions that could be taken to keep the student in school. The student must be informed of opportunities to continue his or her education in a different environment, including, but not limited to, adult education and GED test preparation. Additionally, the student must complete a survey in a format prescribed by the Department of Education to provide data on student reasons for terminating enrollment and actions taken by schools to keep students enrolled.*

Section 19. Section 1003.413, Florida Statutes, is created to read:

1003.413 Florida Secondary School Redesign Act.—

(1) Secondary schools are schools that primarily serve students in grades 6 through 12. It is the intent of the Legislature to provide for secondary school redesign so that students promoted from the 8th grade have the necessary academic skills for success in high school and students

graduating from high school have the necessary skills for success in the workplace and postsecondary education.

(2) The following guiding principles for secondary school redesign shall be used in the annual preparation of each secondary school's improvement plan required by s. 1001.42(16):

(a) Struggling students, especially those in failing schools, need the highest quality teachers and dramatically different, innovative approaches to teaching and learning.

(b) Every teacher must contribute to every student's reading improvement.

(c) Quality professional development provides teachers and principals with the tools they need to better serve students.

(d) Small learning communities allow teachers to personalize instruction to better address student learning styles, strengths, and weaknesses.

(e) Intensive intervention in reading and mathematics must occur early and through innovative delivery systems.

(f) Parents need access to tools they can use to monitor their child's progress in school, communicate with teachers, and act early on behalf of their child.

(g) Applied and integrated courses help students see the relationships between subjects and relevance to their futures.

(h) School is more relevant when students choose courses based on their goals, interests, and talents.

(i) Master schedules should not determine instruction and must be designed based on student needs, not adult or institutional needs.

(j) Academic and career planning engages students in developing a personally meaningful course of study so they can achieve goals they have set for themselves.

(3) Based on these guiding principles, district school boards shall establish policies to implement the requirements of ss. 1003.4156, 1003.428, and 1003.493. The policies must address:

(a) Procedures for placing and promoting students who enter a Florida public school at grade 6 through grade 12 from out of state or from a foreign country, including a review of the student's prior academic performance.

(b) Alternative methods for students to demonstrate competency in required courses and credits, with special support for students who have been retained.

(c) Applied, integrated, and combined courses that provide flexibility for students to enroll in courses that are creative and meet individual learning styles and student needs.

(d) Credit recovery courses and intensive reading and mathematics intervention courses based on student performance on the FCAT. These courses should be competency based and offered through innovative delivery systems, including computer-assisted instruction. School districts should use learning gains as well as other appropriate data and provide incentives to identify and reward high-performing teachers who teach credit recovery and intensive intervention courses.

(e) Grade forgiveness policies that replace a grade of "D" or "F" with a grade of "C" or higher earned subsequently in the same or a comparable course.

(f) Summer academies for students to receive intensive reading and mathematics intervention courses or competency-based credit recovery courses. A student's participation in an instructional or remediation program prior to or immediately following entering grade 9 for the first time shall not affect that student's classification as a first-time 9th grader for reporting purposes.

(g) Strategies to support teachers' pursuit of the reading endorsement and emphasize reading instruction professional development for content area teachers.

(h) Creative and flexible scheduling designed to meet student needs.

(i) Procedures for high school students who have not prepared an electronic personal education plan pursuant to s. 1003.4156 to prepare such plan.

(j) Tools for parents to regularly monitor student progress and communicate with teachers.

(k) Additional course requirements for promotion and graduation which may be determined by each school district in the student progression plan and may include additional academic, fine and performing arts, physical education, or career and technical education courses in order to provide a complete education program pursuant to s. 1001.41(3).

(4) In order to support the successful implementation of this section by district school boards, the Department of Education shall:

(a) By February 1, 2007, increase the number of approved applied, integrated, and combined courses available to school districts.

(b) By the beginning of the 2006-2007 school year, make available a professional development package designed to provide the information that content area teachers need to become proficient in applying scientifically based reading strategies through their content areas.

(c) Share best practices for providing a complete education program to students enrolled in course recovery, credit recovery, intensive reading intervention, or intensive mathematics intervention.

(d) Expedite assistance and decisions and coordinate policies throughout all divisions within the department to provide school districts with support to implement this section.

(e) Use data to provide the Legislature with an annual longitudinal analysis of the success of this reform effort, including the progress of 6th grade students and 9th grade students scoring at Level 1 on FCAT Reading or FCAT Mathematics.

(5) The Commissioner of Education shall create and implement the Secondary School Improvement Award Program to reward public secondary schools that demonstrate continuous student academic improvement and show the greatest gains in student academic achievement in reading and mathematics.

Section 20. *Section 1003.415, Florida Statutes, is repealed.*

Students must be advised of eligibility requirements for state scholarship programs and postsecondary admissions.

(2) The 24 credits may be earned through applied, integrated, and combined courses approved by the Department of Education and shall be distributed as follows:

(a) Sixteen core curriculum credits:

1. Four credits in English, with major concentration in composition, reading for information, and literature.

Upon the recommendation of the commissioner, the State Board of Education may develop criteria and guidelines for awarding such diplomas.

(10) The Commissioner of Education may award a standard high school diploma to honorably discharged veterans who started high school between 1946 and 1950 and were scheduled to graduate between 1950 and 1954, but were inducted into the United States Armed Forces between June 27, 1950, and January 31, 1955, and served during the Korean Conflict prior to completing the necessary high school graduation requirements. Upon the recommendation of the commissioner, the State Board of Education may develop criteria and guidelines for awarding such diplomas.

The assessment of writing and science shall be administered at least once at the elementary, middle, and high school levels. The commissioner must document the procedures used to ensure that the versions of the FCAT which are taken by students retaking the grade 10 FCAT are equally as challenging and difficult as the tests taken by students in grade 10 which contain performance tasks.* The testing program must be designed so that:

1. The tests measure student skills and competencies adopted by the State Board of Education as specified in paragraph (a). The tests must measure and report student proficiency levels *of all students assessed* in

reading, writing, mathematics, and science. The commissioner shall provide for the tests to be developed or obtained, as appropriate, through contracts and project agreements with private vendors, public vendors, public agencies, postsecondary educational institutions, or school districts. The commissioner shall obtain input with respect to the design and implementation of the testing program from state educators*, assistive technology experts,* and the public.

2. The testing program will include a combination of norm-referenced and criterion-referenced tests and include, to the extent determined by the commissioner, questions that require the student to produce information or perform tasks in such a way that the skills and competencies he or she uses can be measured.

3. Each testing program, whether at the elementary, middle, or high school level, includes a test of writing in which students are required to produce writings that are then scored by appropriate *and timely* methods.

4. A score is designated for each subject area tested, below which score a student's performance is deemed inadequate. The school districts shall provide appropriate remedial instruction to students who score below these levels.

5. Except as provided in *s. 1003.428(8)(b) or* s. 1003.43(11)(b), students must earn a passing score on the grade 10 assessment test described in this paragraph or *attain concordant scores* ~~on an alternate assessment~~ as described in subsection (9) in reading, writing, and mathematics to qualify for a *standard* ~~regular~~ high school diploma. The State Board of Education shall designate a passing score for each part of the grade 10 assessment test. In establishing passing scores, the state board shall consider any possible negative impact of the test on minority students. ~~All students who took the grade 10 FCAT during the 2000-2001 school year shall be required to earn the passing scores in reading and mathematics established by the State Board of Education for the March 2001 test administration. Such students who did not earn the established passing scores and must repeat the grade 10 FCAT are required to earn the passing scores established for the March 2001 test administration. All students who take the grade 10 FCAT for the first time in March 2002 shall be required to earn the passing scores in reading and mathematics established by the State Board of Education for the March 2002 test administration.~~ The State Board of Education shall adopt rules which specify the passing scores for the grade 10 FCAT. Any such rules, which have the effect of raising the required passing scores, shall only apply to students taking the grade 10 FCAT for the first time after such rules are adopted by the State Board of Education.

6. Participation in the testing program is mandatory for all students attending public school, including students served in Department of Juvenile Justice programs, except as otherwise prescribed by the commissioner. If a student does not participate in the statewide assessment, the district must notify the student's parent and provide the parent with information regarding the implications of such nonparticipation. ~~If modifications are made in the student's instruction to provide accommodations that would not be permitted on the statewide assessment tests, the district must notify the student's parent of the implications of such instructional modifications.~~ A parent must provide signed consent for a student to receive *classroom* instructional *accommodations* ~~modifications~~ that would not be *available or* permitted on the statewide assessments and must acknowledge in writing that he or she understands the implications of such *instructional* accommodations. The State Board of Education shall adopt rules, based upon recommendations of the commissioner, for the provision of test accommodations ~~and modifications of procedures as necessary~~ for students in exceptional education programs and for students who have limited English proficiency. Accommodations that negate the validity of a statewide assessment are not allowable *in the administration of the FCAT. However, instructional accommodations are allowable in the classroom if included in a student's individual education plan. Students using instructional accommodations in the classroom that are not allowable as accommodations on the FCAT may have the FCAT requirement waived pursuant to the requirements of s. 1003.428(8)(b) or s. 1003.43(11)(b)*.

7. A student seeking an adult high school diploma must meet the same testing requirements that a regular high school student must meet.

8. District school boards must provide instruction to prepare students to demonstrate proficiency in the skills and competencies necessary for successful grade-to-grade progression and high school graduation. If a student is provided with *instructional* accommodations *in the classroom* ~~or modifications~~ that are not allowable *as accommodations* in the statewide assessment program, as described in the test manuals, the district must inform the parent in writing and must provide the parent with information regarding the impact on the student's ability to meet expected proficiency levels in reading, writing, and math. The commissioner shall conduct studies as necessary to verify that the required skills and competencies are part of the district instructional programs.

9. District school boards must provide opportunities for students to demonstrate an acceptable level of performance on an alternative standardized assessment approved by the State Board of Education following enrollment in summer academies.

10.~~9.~~ The Department of Education must develop, or select, and implement a common battery of assessment tools that will be used in all juvenile justice programs in the state. These tools must accurately measure the skills and competencies established in the ~~Florida~~ Sunshine State Standards.

11. For students seeking a special diploma pursuant to s. 1003.438, the Department of Education must develop or select and implement an alternate assessment tool that accurately measures the skills and competencies established in the Sunshine State Standards for students with disabilities under s. 1003.438.

The commissioner may*, based on collaboration and input from school districts,* design and implement student testing programs, for any grade level and subject area, necessary to effectively monitor educational achievement in the state*, including the measurement of educational achievement of the Sunshine State Standards for students with disabilities. Development and refinement of assessments shall include universal design principles and accessibility standards that will prevent any unintended obstacles for students with disabilities while ensuring the validity and reliability of the test. These principles should be applicable to all technology platforms and assistive devices available for the assessments. The field testing process and psychometric analyses for the statewide assessment program must include an appropriate percentage of students with disabilities and an evaluation or determination of the effect of test items on such students*.

(e) Conduct ongoing research and analysis of student achievement data, including, without limitation, monitoring trends in student achievement *by grade level and overall student achievement*, identifying school programs that are successful, and analyzing correlates of school achievement.

(f) Study the cost and student achievement impact of secondary end-of-course assessments, including web-based and performance formats, and report to the Legislature prior to implementation.

(9) *CONCORDANT SCORES FOR THE FCAT* ~~EQUIVALENCIES FOR STANDARDIZED TESTS~~.—

(a) *The State Board of Education shall analyze the content and concordant data sets for widely used high school achievement tests, including, but not limited to, the PSAT, PLAN, SAT, ACT, and College Placement Test, to assess if concordant scores for FCAT scores can be determined for high school graduation, college placement, and scholarship awards. In cases where content alignment and concordant scores can be determined, the Commissioner of Education shall adopt those scores as meeting the graduation requirement in lieu of achieving the FCAT passing score and may adopt those scores as being sufficient to achieve additional purposes as determined by rule. Each time that test content or scoring procedures are changed for the FCAT or one of the identified tests, new concordant scores must be determined.* ~~The Commissioner of Education shall approve the use of the SAT and ACT tests as alternative assessments to the grade 10 FCAT for the 2003-2004 school year.~~

(b) In order to use a concordant subject area score pursuant to this subsection to ~~Students who attain scores on the SAT or ACT which equate to the passing scores on the grade 10 FCAT for purposes of high school graduation shall~~ satisfy the assessment requirement for a standard high school diploma as provided in s. 1003.429(6)(a)*,* ~~or~~ s. 1003.43(5)(a)*, or s. 1003.428,* ~~for the 2003-2004 school year if the students meet the requirement in paragraph (b).~~

~~(b)~~ a student *must* ~~shall be required to~~ take *each subject area of* the grade 10 FCAT a total of three times without earning a passing score ~~in~~

~~order to use the scores on an alternative assessment pursuant to paragraph (a)~~. *The requirements of this paragraph* ~~This requirement~~ shall not apply to a *new* student who *enters the Florida* ~~is a new student to the~~ public school system in grade 12*, who may either achieve a passing score on the FCAT or use an approved subject area concordant score to fulfill the graduation requirement*.

(c) The State Board of Education may define by rule the allowable uses, other than to satisfy the high school graduation requirement, for concordant scores as described in this subsection. Such uses may include, but need not be limited to, achieving appropriate standardized test scores required for the awarding of Florida Bright Futures Scholarships and college placement.

(10) REPORTS.—The Department of Education shall annually provide a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives on the following:

(a) Longitudinal performance of students in mathematics and reading.

(b) Longitudinal performance of students by grade level in mathematics and reading.

(c) Longitudinal performance regarding efforts to close the achievement gap.

(d) Longitudinal performance of students on the norm-referenced component of the FCAT.

(e) Other student performance data based on national norm- referenced and criterion-referenced tests, when available, and numbers of students who after 8th grade enroll in adult education rather than other secondary education.

Section 41. *Section 1008.221, Florida Statutes, is repealed.*

Section 42. Paragraphs (a), (b), and (c) of subsection (4), paragraphs (b) and (c) of subsection (6), paragraph (b) of subsection (7), and paragraph (b) of subsection (8) of section 1008.25, Florida Statutes, are amended, and paragraph (c) is added to subsection (8) of that section, to read:

1008.25 Public school student progression; remedial instruction; reporting requirements.—

(4) ASSESSMENT AND REMEDIATION.—

(a) Each student must participate in the statewide assessment tests required by s. 1008.22. Each student who does not meet specific levels of performance as determined by the district school board in reading, writing, science, and mathematics for each grade level, or who *scores below Level 3 in reading or math* ~~does not meet specific levels of performance as determined by the commissioner on statewide assessments at selected grade levels~~, must be provided with additional diagnostic assessments to determine the nature of the student's difficulty*, the* ~~and~~ areas of academic need*, and strategies for appropriate intervention and instruction as described in paragraph (b)*.

(b) The school in which the student is enrolled must develop, in consultation with the student's parent, and must implement *a progress monitoring plan. A progress monitoring plan is intended to provide the school district and the school flexibility in meeting the academic needs of the student and to reduce paperwork. A student who is not meeting the school district or state requirements for proficiency in reading and math shall be covered by one of the following plans to target instruction and identify ways to improve his or her academic achievement:*

1. A federally required student plan such as an individual education plan;

2. A schoolwide system of progress monitoring for all students; or

3. An individualized progress monitoring plan.

The plan chosen must be ~~an academic improvement plan~~ designed to assist the student *or the school* in meeting state and district expectations for proficiency. ~~For a student for whom a personalized middle school success plan is required pursuant to s. 1003.415, the middle school success plan must be incorporated in the student's academic improvement plan. Beginning with the 2002-2003 school year,~~ If the student has been identified as having a deficiency in reading, ~~the academic improvement plan shall identify the student's specific areas of deficiency in phonemic awareness, phonics, fluency, comprehension, and vocabulary; the desired levels of performance in these areas; and~~ the *K-12 comprehensive reading plan required by s. 1011.62(8) shall include* instructional and support services to be provided to meet the desired levels of performance. *District school boards may require low-performing students to attend remediation programs held before or after regular school hours or during the summer if transportation is provided.* ~~Schools shall also provide for the frequent monitoring of the student's progress in meeting the desired levels of performance. District school boards shall assist schools and teachers to implement research-based reading activities that have been shown to be successful in teaching reading to low-performing students. Remedial instruction provided during high school may not be in lieu of English and mathematics credits required for graduation.~~

(c) Upon subsequent evaluation, if the documented deficiency has not been remediated ~~in accordance with the academic improvement plan~~, the student may be retained. Each student who does not meet the minimum performance expectations defined by the Commissioner of Education for the statewide assessment tests in reading, writing, science, and mathematics must continue to be provided with remedial or supplemental instruction until the expectations are met or the student graduates from high school or is not subject to compulsory school attendance.

(6) ELIMINATION OF SOCIAL PROMOTION.—

(b) The district school board may only exempt students from mandatory retention, as provided in paragraph (5)(b), for good cause. Good cause exemptions shall be limited to the following:

1. Limited English proficient students who have had less than 2 years of instruction in an English for Speakers of Other Languages program.

2. Students with disabilities whose individual education plan indicates that participation in the statewide assessment program is not appropriate, consistent with the requirements of State Board of Education rule.

3. Students who demonstrate an acceptable level of performance on an alternative standardized reading assessment approved by the State Board of Education.

4. Students who demonstrate, through a student portfolio, that the student is reading on grade level as evidenced by demonstration of mastery of the Sunshine State Standards in reading equal to at least a Level 2 performance on the FCAT.

5. Students with disabilities who participate in the FCAT and who have an individual education plan or a Section 504 plan that reflects that the student has received ~~the~~ intensive remediation in reading~~, as required by paragraph (4)(b),~~ for more than 2 years but still demonstrates a deficiency in reading and was previously retained in kindergarten, grade 1, grade 2, or grade 3.

6. Students who have received ~~the~~ intensive remediation in reading ~~as required by paragraph (4)(b)~~ for 2 or more years but still demonstrate a deficiency in reading and who were previously retained in kindergarten, grade 1, grade 2, or grade 3 for a total of 2 years. Intensive reading instruction for students so promoted must include an altered instructional day ~~based upon an academic improvement plan~~ that includes specialized diagnostic information and specific reading strategies for each student. The district school board shall assist schools and teachers to implement reading strategies that research has shown to be successful in improving reading among low-performing readers.

(c) Requests for good cause exemptions for students from the mandatory retention requirement as described in subparagraphs (b)3. and 4. shall be made consistent with the following:

1. Documentation shall be submitted from the student's teacher to the school principal that indicates that the promotion of the student is appropriate and is based upon the student's academic record. In order to minimize paperwork requirements, such documentation shall consist

only of the existing *progress monitoring* ~~academic improvement~~ plan, individual educational plan, if applicable, report card, or student portfolio.

2. The school principal shall review and discuss such recommendation with the teacher and make the determination as to whether the student should be promoted or retained. If the school principal determines that the student should be promoted, the school principal shall make such recommendation in writing to the district school superintendent. The district school superintendent shall accept or reject the school principal's recommendation in writing.

(7) SUCCESSFUL PROGRESSION FOR RETAINED READERS.—

(b) Beginning with the 2004-2005 school year, each school district shall:

1. Conduct a review of student *progress monitoring* ~~academic improvement~~ plans for all students who did not score above Level 1 on the reading portion of the FCAT and did not meet the criteria for one of the good cause exemptions in paragraph (6)(b). The review shall address additional supports and services, as described in this subsection, needed to remediate the identified areas of reading deficiency. The school district shall require a student portfolio to be completed for each such student.

2. Provide students who are retained under the provisions of paragraph (5)(b) with intensive instructional services and supports to remediate the identified areas of reading deficiency, including a minimum of 90 minutes of daily, uninterrupted, scientifically research-based reading instruction and other strategies prescribed by the school district, which may include, but are not limited to:

a. Small group instruction.

b. Reduced teacher-student ratios.

c. More frequent progress monitoring.

d. Tutoring or mentoring.

e. Transition classes containing 3rd and 4th grade students.

f. Extended school day, week, or year.

g. Summer reading camps.

3. Provide written notification to the parent of any student who is retained under the provisions of paragraph (5)(b) that his or her child has not met the proficiency level required for promotion and the reasons the child is not eligible for a good cause exemption as provided in paragraph (6)(b). The notification must comply with the provisions of s. 1002.20(14) and must include a description of proposed interventions and supports that will be provided to the child to remediate the identified areas of reading deficiency.

4. Implement a policy for the midyear promotion of any student retained under the provisions of paragraph (5)(b) who can demonstrate that he or she is a successful and independent reader, reading at or above grade level, and ready to be promoted to grade 4. Tools that school districts may use in reevaluating any student retained may include subsequent assessments, alternative assessments, and portfolio reviews, in accordance with rules of the State Board of Education. Students promoted during the school year after November 1 must demonstrate proficiency above that required to score at Level 2 on the grade 3 FCAT, as determined by the State Board of Education. The State Board of Education shall adopt standards that provide a reasonable expectation that the student's progress is sufficient to master appropriate 4th grade level reading skills.

5. Provide students who are retained under the provisions of paragraph (5)(b) with a high-performing teacher as determined by student performance data and above-satisfactory performance appraisals.

6. In addition to required reading enhancement and acceleration strategies, provide parents of students to be retained with at least one of the following instructional options:

a. Supplemental tutoring in scientifically research-based reading services in addition to the regular reading block, including tutoring before and/or after school.

b. A "Read at Home" plan outlined in a parental contract, including participation in "Families Building Better Readers Workshops" and regular parent-guided home reading.

c. A mentor or tutor with specialized reading training.

7. Establish a Reading Enhancement and Acceleration Development (READ) Initiative. The focus of the READ Initiative shall be to prevent the retention of grade 3 students and to offer intensive accelerated reading instruction to grade 3 students who failed to meet standards for promotion to grade 4 and to each K-3 student who is assessed as exhibiting a reading deficiency. The READ Initiative shall:

a. Be provided to all K-3 students at risk of retention as identified by the statewide assessment system used in Reading First schools. The assessment must measure phonemic awareness, phonics, fluency, vocabulary, and comprehension.

b. Be provided during regular school hours in addition to the regular reading instruction.

c. Provide a state-identified reading curriculum that has been reviewed by the Florida Center for Reading Research at Florida State University and meets, at a minimum, the following specifications:

(I) Assists students assessed as exhibiting a reading deficiency in developing the ability to read at grade level.

(II) Provides skill development in phonemic awareness, phonics, fluency, vocabulary, and comprehension.

(III) Provides scientifically based and reliable assessment.

(IV) Provides initial and ongoing analysis of each student's reading progress.

(V) Is implemented during regular school hours.

(VI) Provides a curriculum in core academic subjects to assist the student in maintaining or meeting proficiency levels for the appropriate grade in all academic subjects.

8. Establish at each school, where applicable, an Intensive Acceleration Class for retained grade 3 students who subsequently score at Level 1 on the reading portion of the FCAT. The focus of the Intensive Acceleration Class shall be to increase a child's reading level at least two grade levels in 1 school year. The Intensive Acceleration Class shall:

a. Be provided to any student in grade 3 who scores at Level 1 on the reading portion of the FCAT and who was retained in grade 3 the prior year because of scoring at Level 1 on the reading portion of the FCAT.

b. Have a reduced teacher-student ratio.

c. Provide uninterrupted reading instruction for the majority of student contact time each day and incorporate opportunities to master the grade 4 Sunshine State Standards in other core subject areas.

d. Use a reading program that is scientifically research-based and has proven results in accelerating student reading achievement within the same school year.

e. Provide intensive language and vocabulary instruction using a scientifically research-based program, including use of a speech-language therapist.

f. Include weekly progress monitoring measures to ensure progress is being made.

g. Report to the Department of Education, in the manner described by the department, the progress of students in the class at the end of the first semester.

9. Report to the State Board of Education, as requested, on the specific intensive reading interventions and supports implemented at the school district level. The Commissioner of Education shall annually prescribe the required components of requested reports.

10. Provide a student who has been retained in grade 3 and has received intensive instructional services but is still not ready for grade

promotion, as determined by the school district, the option of being placed in a transitional instructional setting. Such setting shall specifically be designed to produce learning gains sufficient to meet grade 4 performance standards while continuing to remediate the areas of reading deficiency.

(8) ANNUAL REPORT.—

(b) ~~Beginning with the 2001-2002 school year,~~ Each district school board must annually publish in the local newspaper, and report in writing to the State Board of Education by September 1 of each year, the following information on the prior school year:

1. The provisions of this section relating to public school student progression and the district school board's policies and procedures on student retention and promotion.

2. By grade, the number and percentage of all students in grades 3 through 10 performing at Levels 1 and 2 on the reading portion of the FCAT.

3. By grade, the number and percentage of all students retained in grades 3 through 10.

4. Information on the total number of students who were promoted for good cause, by each category of good cause as specified in paragraph (6)(b).

5. Any revisions to the district school board's policy on student retention and promotion from the prior year.

(c) The Department of Education shall establish a uniform format for school districts to report the information required in paragraph (b). The format shall be developed with input from district school boards and shall be provided not later than 90 days prior to the annual due date. The department shall annually compile the information required in subparagraphs (b)2., 3., and 4., along with state-level summary information, and report such information to the Governor, the President of the Senate, and the Speaker of the House of Representatives.

Section 43. *Section 1008.301, Florida Statutes, is repealed.*

Section 44. Paragraphs (d) and (e) of subsection (1), paragraphs (b) and (c) of subsection (2), and subsection (3) of section 1008.31, Florida Statutes, are amended, and subsection (4) is added to that section, to read:

1008.31 Florida's K-20 education performance accountability system; legislative intent; ~~performance-based funding;~~ mission, goals, and systemwide measures*; data quality improvements*.—

(1) LEGISLATIVE INTENT.—It is the intent of the Legislature that:

(d) The State Board of Education *and the Board of Governors of the State University System* recommend to the Legislature systemwide performance standards; the Legislature establish systemwide performance measures and standards; and the systemwide measures and standards provide Floridians with information on what the public is receiving in return for the funds it invests in education and how well the K-20 system educates its students.

(e)*1.* The State Board of Education establish performance measures and set performance standards for individual ~~components of the~~ public ~~education system, including individual~~ schools and *community colleges* ~~postsecondary educational institutions~~, with measures and standards based primarily on student achievement.

2. The Board of Governors of the State University System establish performance measures and set performance standards for individual state universities, including actual completion rates.

(2) MISSION, GOALS, AND SYSTEMWIDE MEASURES.—

(b) The *process* ~~State Board of Education shall adopt guiding principles~~ for establishing state and sector-specific standards and measures *must be:*

1. Focused on student success.

2. Addressable through policy and program changes.

3. Efficient and of high quality.

4. Measurable over time.

5. Simple to explain and display to the public.

6. Aligned with other measures and other sectors to support a coordinated K-20 education system.

(c) The *Department* ~~State Board~~ of Education shall maintain an accountability system that measures student progress toward the following goals:

1. Highest student achievement, as *indicated by evidence of student learning gains at all levels* ~~measured by: student FCAT performance and annual learning gains; the number and percentage of schools that improve at least one school performance grade designation or maintain a school performance grade designation of "A" pursuant to s. 1008.34; graduation or completion rates at all learning levels; and other measures identified in law or rule~~.

2. Seamless articulation and maximum access, as measured by *evidence of progression, readiness, and access by targeted groups of students identified by the Commissioner of Education*~~: the percentage of students who demonstrate readiness for the educational level they are entering, from kindergarten through postsecondary education and into the workforce; the number and percentage of students needing remediation; the percentage of Floridians who complete associate, baccalaureate, graduate, professional, and postgraduate degrees; the number and percentage of credits that articulate; the extent to which each set of exit point requirements matches the next set of entrance point requirements; the degree to which underserved populations access educational opportunity; the extent to which access is provided through innovative educational delivery strategies; and other measures identified in law or rule~~.

3. Skilled workforce and economic development, as measured by *evidence of employment and earnings*~~: the number and percentage of graduates employed in their areas of preparation; the percentage of Floridians with high school diplomas and postsecondary education credentials; the percentage of business and community members who find that Florida's graduates possess the skills they need; national rankings; and other measures identified in law or rule~~.

5. Other goals as identified by law or rule.

(3) *K-20 EDUCATION DATA QUALITY IMPROVEMENTS* ~~SYSTEMWIDE DATA COLLECTION~~.—*To provide data required to implement education performance accountability measures in state and federal law, the Commissioner of Education shall initiate and maintain strategies to improve data quality and timeliness. All data collected from state universities shall, as determined by the commissioner, be integrated into the K-20 data warehouse. The commissioner shall have unlimited access to such data solely for the purposes of conducting studies, reporting annual and longitudinal student outcomes, and improving college readiness and articulation. All public educational institutions shall provide data to the K-20 data warehouse in a format specified by the commissioner.*

(a) School districts and public postsecondary educational institutions shall maintain information systems that will provide the State Board of Education*, the Board of Governors of the State University System,* and the Legislature with information and reports necessary to address the specifications of the accountability system. ~~The State Board of Education shall determine the standards for the required data.~~ The level of comprehensiveness and quality shall be no less than that which was available as of June 30, 2001.

(b) The Commissioner of Education shall determine the standards for the required data, monitor data quality, and measure improvements. The commissioner shall report annually to the State Board of Education, the

Board of Governors of the State University System, the President of the Senate, and the Speaker of the House of Representatives data quality indicators and ratings for all school districts and public postsecondary educational institutions.

(c) Before establishing any new reporting or data collection requirements, the Commissioner of Education shall utilize existing data being collected to reduce duplication and minimize paperwork.

(4) RULES.—The State Board of Education shall adopt rules pursuant to ss. 120.536(1) and 120.54 to implement the provisions of this section relating to the K-20 data warehouse.

Section 45. Section 1008.33, Florida Statutes, is amended to read:

1008.33 Authority to enforce public school improvement.—It is the intent of the Legislature that all public schools be held accountable for students performing at acceptable levels. A system of school improvement and accountability that assesses student performance by school, identifies schools in which students are not making adequate progress toward state standards, institutes appropriate measures for enforcing improvement, and provides rewards and sanctions based on performance shall be the responsibility of the State Board of Education.

(1) Pursuant to Art. IX of the State Constitution prescribing the duty of the State Board of Education to supervise Florida's public school system and notwithstanding any other statutory provisions to the contrary, the State Board of Education shall intervene in the operation of a district school system when one or more schools in the school district have failed to make adequate progress for 2 school years in a 4-year period. For purposes of determining when a school is eligible for state board action and opportunity scholarships for its students, the terms "2 years in any 4-year period" and "2 years in a 4-year period" mean that in any year that a school has a grade of "F," the school is eligible for state board action and opportunity scholarships for its students if it also has had a grade of "F" in any of the previous 3 school years. The State Board of Education may determine that the school district or school has not taken steps sufficient for students in the school to be academically well served. Considering recommendations of the Commissioner of Education, the State Board of Education shall recommend action to a district school board intended to improve educational services to students in each school that is designated *with a* ~~as performance~~ grade *of* ~~category~~ "F." Recommendations for actions to be taken in the school district shall be made only after thorough consideration of the unique characteristics of a school, which shall include student mobility rates, the number and type of exceptional students enrolled in the school, and the availability of options for improved educational services. The state board shall adopt by rule steps to follow in this process. Such steps shall provide school districts sufficient time to improve student performance in schools and the opportunity to present evidence of assistance and interventions that the district school board has implemented.

(2) The State Board of Education may recommend one or more of the following actions to district school boards to enable students in schools designated *with a* ~~as performance~~ grade *of* ~~category~~ "F" to be academically well served by the public school system:

(a) Provide additional resources, change certain practices, and provide additional assistance if the state board determines the causes of inadequate progress to be related to school district policy or practice;

(b) Implement a plan that satisfactorily resolves the education equity problems in the school;

(c) Contract for the educational services of the school, or reorganize the school at the end of the school year under a new school principal who is authorized to hire new staff and implement a plan that addresses the causes of inadequate progress. *A contract to administer an alternative school may not be entered into with a private entity which contract changes the character of the alternative school population as it existed when the alternative school was administered by the public school system. The term "character of the alternative school population" means the percentage of students having learning disabilities, physical disabilities, emotional disabilities, or developmental disabilities, as well as the percentage of students having discipline problems*;

(d) Allow parents of students in the school to send their children to another district school of their choice; or

(e) Other action appropriate to improve the school's performance*, including, if the school is a high school, requiring annual publication of the school's graduation rate calculated without GED tests for the past 3 years, disaggregated by student ethnicity*.

(3) In recommending actions to district school boards, the State Board of Education shall specify the length of time available to implement the recommended action. The State Board of Education may adopt rules to further specify how it may respond in specific circumstances. No action taken by the State Board of Education shall relieve a school from state accountability requirements.

(4) The State Board of Education may require the Department of Education or Chief Financial Officer to withhold any transfer of state funds to the school district if, within the timeframe specified in state board action, the school district has failed to comply with the action ordered to improve the district's low-performing schools. Withholding the transfer of funds shall occur only after all other recommended actions for school improvement have failed to improve performance. The State Board of Education may impose the same penalty on any district school board that fails to develop and implement a plan for assistance and intervention for low-performing schools as specified in *s. 1001.42(16)(d)* ~~s. 1001.42(16)(c)~~.

Section 46. Section 1008.34, Florida Statutes, is amended to read:

1008.34 School grading system; *school report cards;* district ~~performance~~ grade.—

(1) ANNUAL REPORTS.—The Commissioner of Education shall prepare annual reports of the results of the statewide assessment program which describe student achievement in the state, each district, and each school. The commissioner shall prescribe the design and content of these reports, which must include, without limitation, descriptions of the performance of all schools participating in the assessment program and all of their major student populations as determined by the Commissioner of Education, and must also include the median scores of all eligible students who scored at or in the lowest 25th percentile of the state in the previous school year; provided, however, that the provisions of s. 1002.22 pertaining to student records apply to this section.

(2) SCHOOL *GRADES* ~~PERFORMANCE GRADE CATEGORIES~~.—The annual report shall identify schools as *having one of the following grades,* ~~being in one of the following grade categories~~ defined according to rules of the State Board of Education:

(a) "A," schools making excellent progress.

(b) "B," schools making above average progress.

(c) "C," schools making satisfactory progress.

(d) "D," schools making less than satisfactory progress.

(e) "F," schools failing to make adequate progress.

Each school designated *with a* ~~in performance~~ grade *of* ~~category~~ "A," making excellent progress, or having improved at least two ~~performance~~ grade *levels* ~~categories~~, shall have greater authority over the allocation of the school's total budget generated from the FEFP, state categoricals, lottery funds, grants, and local funds, as specified in state board rule. The rule must provide that the increased budget authority shall remain in effect until the school's ~~performance~~ grade declines.

(3) DESIGNATION OF SCHOOL *GRADES* ~~PERFORMANCE GRADE CATEGORIES~~.—*Each school that has students who are tested and included in the school grading system, except an alternative school that receives a school-improvement rating pursuant to s. 1008.341, shall receive a school grade; however, an alternative school may choose to receive a school grade under this section in lieu of a school-improvement rating. Additionally, a school that serves any combination of students in kindergarten through grade 3 which does not receive a school grade because its students are not tested and included in the school grading system shall receive the school grade designation of a K-3 feeder pattern school identified by the Department of Education and verified by the school district. A school feeder pattern exists if at least 60 percent of the students in the school serving a combination of students in kindergarten through grade 3 are scheduled to be assigned to the graded school.* School *grades* ~~performance grade category designations~~ itemized in subsection (2) shall be based on the following:

(a) *Criteria* ~~Timeframes~~.—*A school's grade shall be based on a combination of:*

1. *Student achievement scores, including achievement scores for students seeking a special diploma* ~~School performance grade category designations shall be based on the school's current year performance and the school's annual learning gains~~.

2. ~~A school's performance grade category designation shall be based on a combination of student achievement scores,~~ Student learning gains as measured by annual FCAT assessments in grades 3 through 10*; learning gains for students seeking a special diploma, as measured by an alternate assessment tool, shall be included not later than the 2009-2010 school year.*~~, and~~

3. Improvement of the lowest 25th percentile of students in the school in reading, math, or writing on the FCAT, unless these students are *exhibiting* ~~performing above~~ satisfactory performance.

(b) Student assessment data.—Student assessment data used in determining school *grades* ~~performance grade categories~~ shall include:

1. The aggregate scores of all eligible students enrolled in the school who have been assessed on the FCAT.

2. The aggregate scores of all eligible students enrolled in the school who have been assessed on the FCAT, including Florida Writes, and who have scored at or in the lowest 25th percentile of students in the school in reading, math, or writing, unless these students are *exhibiting* ~~performing above~~ satisfactory performance.

3. Effective with the 2005-2006 school year, the achievement scores and learning gains of eligible students attending alternative schools that provide dropout-prevention and academic-intervention services pursuant to s. 1003.53. The term "eligible students" in this subparagraph does not include students attending an alternative school who are subject to district school board policies for expulsion for repeated or serious offenses, who are in dropout-retrieval programs serving students who have officially been designated as dropouts, or who are in programs operated or contracted by the Department of Juvenile Justice. The student performance data for eligible students identified in this subparagraph shall be included in the calculation of the home school's grade. For purposes of this section and s. 1008.341, "home school" means the school the student was attending when assigned to an alternative school. If an alternative school chooses to be graded pursuant to this section, student performance data for eligible students identified in this subparagraph shall not be included in the home school's grade but shall be included only in the calculation of the alternative school's grade. School districts must require collaboration between the home school and the alternative school in order to promote student success.

~~The Department of Education shall study the effects of mobility on the performance of highly mobile students and recommend programs to improve the performance of such students.~~ The State Board of Education shall adopt appropriate criteria for each school ~~performance~~ grade ~~category~~. The criteria must also give added weight to student achievement in reading. Schools designated *with a* ~~as performance~~ grade *of* ~~category~~ "C," making satisfactory progress, shall be required to demonstrate that adequate progress has been made by students in the school who are in the lowest 25th percentile in reading, math, or writing on the FCAT, including Florida Writes, unless these students are *exhibiting* ~~performing above~~ satisfactory performance.

(4) SCHOOL IMPROVEMENT RATINGS.—The annual report shall identify each school's performance as having improved, remained the same, or declined. This school improvement rating shall be based on a comparison of the current year's and previous year's student and school performance data. Schools that improve at least one ~~performance~~ grade *level* ~~category~~ are eligible for school recognition awards pursuant to s. 1008.36.

(5) SCHOOL *REPORT CARD* ~~PERFORMANCE GRADE CATEGORY AND IMPROVEMENT RATING REPORTS~~.—*The Department of Education shall annually develop, in collaboration with the school districts, a school report card to be delivered to parents throughout each school district. The report card shall include the school's grade, information regarding school improvement, an explanation of school performance as evaluated by the federal No Child Left Behind Act of 2001, and indicators of return on investment.* ~~School performance grade category designations and improvement ratings shall apply to each school's performance for the year in which performance is measured.~~ Each school's *report card* ~~designation and rating~~ shall be published annually by the department *on its website,* ~~of Education~~ and the school district *shall provide the school report card to each parent*. ~~Parents shall be entitled to an easy-to-read report card about the designation and rating of the school in which their child is enrolled.~~

~~(6) RULES.—The State Board of Education shall adopt rules pursuant to ss. 120.536(1) and 120.54 to implement the provisions of this section.~~

(6)~~(7)~~ PERFORMANCE-BASED FUNDING.—The Legislature may factor in the performance of schools in calculating any performance-based funding policy that is provided for annually in the General Appropriations Act.

(7)~~(8)~~ DISTRICT ~~PERFORMANCE~~ GRADE.—The annual report required by subsection (1) shall include district ~~performance~~ grades, which shall consist of weighted district average grades, by level, for all elementary schools, middle schools, and high schools in the district. A district's weighted average grade shall be calculated by weighting individual school grades determined pursuant to subsection (2) by school enrollment.

Section 47. Section 1008.341, Florida Statutes, is created to read:

1008.341 School-improvement rating for alternative schools.—

(1) ANNUAL REPORTS.—The Commissioner of Education shall prepare an annual report on the performance of each school receiving a school-improvement rating pursuant to this section if the provisions of s. 1002.22 pertaining to student records apply.

(2) SCHOOL IMPROVEMENT RATING.—Alternative schools that provide dropout-prevention and academic-intervention services pursuant to s. 1003.53 shall receive a school-improvement rating pursuant to this section. The school-improvement rating shall identify schools as having one of the following ratings defined according to rules of the State Board of Education:

(a) "Improving" means schools with students making more academic progress than when the students were served in their home schools.

(b) "Maintaining" means schools with students making progress equivalent to the progress made when the students were served in their home schools.

(c) "Declining" means schools with students making less academic progress than when the students were served in their home schools.

The school-improvement rating shall be based on a comparison of student performance data for the current year and previous year. Schools that improve at least one level or maintain an "improving" rating pursuant to this section are eligible for school recognition awards pursuant to s. 1008.36.

(3) DESIGNATION OF SCHOOL-IMPROVEMENT RATING.—Student data used in determining an alternative school's school-improvement rating shall include:

(a) The aggregate scores of all eligible students who were assigned to and enrolled in the school during the October or February FTE count, who have been assessed on the FCAT, and who have FCAT or comparable scores for the preceding school year.

(b) The aggregate scores of all eligible students who were assigned to and enrolled in the school during the October or February FTE count, who have been assessed on the FCAT, including Florida Writes, and who have scored in the lowest 25th percentile of students in the state on FCAT Reading.

The assessment scores of students who are subject to district school board policies for expulsion for repeated or serious offenses, who are in dropout-retrieval programs serving students who have officially been designated as dropouts, or who are in programs operated or contracted by the Department of Juvenile Justice may not be included in an alternative school's school improvement rating.

(4) IDENTIFICATION OF STUDENT LEARNING GAINS.—For each alternative school receiving a school-improvement rating, the De-

partment of Education shall annually identify the percentage of students making learning gains as compared to the percentage of the same students making learning gains in their home schools in the year prior to being assigned to the alternative school.

(5) SCHOOL REPORT CARD.—The Department of Education shall annually develop, in collaboration with the school districts, a school report card for alternative schools to be delivered to parents throughout each school district. The report card shall include the school-improvement rating, identification of student learning gains, student attendance data, information regarding school improvement, an explanation of school performance as evaluated by the federal No Child Left Behind Act of 2001, and indicators of return on investment.

Section 48. Subsection (5), paragraphs (b) and (d) of subsection (6), and subsection (7) of section 1008.345, Florida Statutes, are amended to read:

1008.345 Implementation of state system of school improvement and education accountability.—

(5) The commissioner shall report to the Legislature and recommend changes in state policy necessary to foster school improvement and education accountability. Included in the report shall be a list of the schools, including schools operating for the purpose of providing educational services to youth in Department of Juvenile Justice programs, for which district school boards have developed assistance and intervention plans and an analysis of the various strategies used by the school boards. School reports shall be distributed pursuant to this subsection and *s. 1001.42(16)(f)* ~~s. 1001.42(16)(c)~~ and according to rules adopted by the State Board of Education.

(6)

(b) Upon request, the department shall provide technical assistance and training to any school, including any school operating for the purpose of providing educational services to youth in Department of Juvenile Justice programs, school advisory council, district, or district school board for conducting needs assessments, developing and implementing school improvement plans, developing and implementing assistance and intervention plans, or implementing other components of school improvement and accountability. Priority for these services shall be given to schools designated *with a* ~~as performance~~ grade *of* ~~category~~ "D" or "F" and school districts in rural and sparsely populated areas of the state.

(d) The *commissioner* ~~department~~ shall assign a community assessment team to each school district *or governing board* with a school *graded* ~~designated as performance grade category "D" or~~ "F" to review the school performance data and determine causes for the low performance*, including the role of school, area, and district administrative personnel. The community assessment team shall review a high school's graduation rate calculated without GED tests for the past 3 years, disaggregated by student ethnicity*. The team shall make recommendations to the school board *or the governing board*, to the department, and to the State Board of Education for implementing an assistance and intervention plan that will address the causes of the school's low performance. The assessment team shall include, but not be limited to, a department representative, parents, business representatives, educators, *representatives of local governments,* and community activists, and shall represent the demographics of the community from which they are appointed.

(7)(a) Schools designated *with a* ~~in performance~~ grade *of* ~~category~~ "A," making excellent progress, shall, if requested by the school, be given deregulated status as specified in s. 1003.63(5), (7), (8), (9), and (10).

(b) Schools that have improved at least two *grades* ~~performance grade categories~~ and that meet the criteria of the Florida School Recognition Program pursuant to s. 1008.36 may be given deregulated status as specified in s. 1003.63(5), (7), (8), (9), and (10).

Section 49. Subsection (3) of section 1009.24, Florida Statutes, is amended to read:

1009.24 State university student fees.—

(3) *Except as otherwise provided by law, undergraduate tuition shall be established annually in the General Appropriations Act. The Board of Governors, or the board's designee, may establish tuition for graduate and professional programs, and out-of-state fees for all programs. The sum of tuition and out-of-state fees assessed to nonresident students must be sufficient to offset the full instructional cost of serving such students. However, adjustments to out-of-state fees or tuition for graduate and professional programs pursuant to this section may not exceed 10 percent in any year.* ~~Within proviso in the General Appropriations Act and law, each board of trustees shall set university tuition and fees.~~ The sum of the activity and service, health, and athletic fees a student is required to pay to register for a course shall not exceed 40 percent of the tuition established in law or in the General Appropriations Act. No university shall be required to lower any fee in effect on the effective date of this act in order to comply with this subsection. Within the 40 percent cap, universities may not increase the aggregate sum of activity and service, health, and athletic fees more than 5 percent per year unless specifically authorized in law or in the General Appropriations Act. A university may increase its athletic fee to defray the costs associated with changing National Collegiate Athletic Association divisions. Any such increase in the athletic fee may exceed both the 40 percent cap and the 5 percent cap imposed by this subsection. Any such increase must be approved by the athletic fee committee in the process outlined in subsection (11) and cannot exceed $2 per credit hour. Notwithstanding the provisions of ss. 1009.534, 1009.535, and 1009.536, that portion of any increase in an athletic fee pursuant to this subsection that causes the sum of the activity and service, health, and athletic fees to exceed the 40 percent cap or the annual increase in such fees to exceed the 5 percent cap shall not be included in calculating the amount a student receives for a Florida Academic Scholars award, a Florida Medallion Scholars award, or a Florida Gold Seal Vocational Scholars award. This subsection does not prohibit a university from increasing or assessing optional fees related to specific activities if payment of such fees is not required as a part of registration for courses.

Section 50. Paragraphs (f), (h), (l), (m), and (n) of subsection (1) and paragraphs (a) and (b) of subsection (4) of section 1011.62, Florida Statutes, are amended, present subsections (8) and (9) of that section are redesignated as subsections (9) and (10), respectively, and amended, and a new subsection (8) is added to that section, to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(1) COMPUTATION OF THE BASIC AMOUNT TO BE INCLUDED FOR OPERATION.—The following procedure shall be followed in determining the annual allocation to each district for operation:

(f) Supplemental academic instruction; categorical fund.—

1. There is created a categorical fund to provide supplemental academic instruction to students in kindergarten through grade 12. This paragraph may be cited as the "Supplemental Academic Instruction Categorical Fund."

2. Categorical funds for supplemental academic instruction shall be allocated annually to each school district in the amount provided in the General Appropriations Act. These funds shall be in addition to the funds appropriated on the basis of FTE student membership in the Florida Education Finance Program and shall be included in the total potential funds of each district. These funds shall be used to provide supplemental academic instruction to students enrolled in the K-12 program. Supplemental instruction strategies may include, but are not limited to: modified curriculum, reading instruction, after-school instruction, tutoring, mentoring, class size reduction, extended school year, intensive skills development in summer school, and other methods for improving student achievement. Supplemental instruction may be provided to a student in any manner and at any time during or beyond the regular 180-day term identified by the school as being the most effective and efficient way to best help that student progress from grade to grade and to graduate.

3. Effective with the 1999-2000 fiscal year, funding on the basis of FTE membership beyond the 180-day regular term shall be provided in the FEFP only for students enrolled in juvenile justice education programs *or in an education program for juveniles under s. 985.223*. Funding for instruction beyond the regular 180-day school year for all other K-12 students shall be provided through the supplemental academic instruction categorical fund and other state, federal, and local fund

sources with ample flexibility for schools to provide supplemental instruction to assist students in progressing from grade to grade and graduating.

4. The Florida State University School, as a lab school, is authorized to expend from its FEFP or Lottery Enhancement Trust Fund allocation the cost to the student of remediation in reading, writing, or mathematics for any graduate who requires remediation at a postsecondary educational institution.

5. Beginning in the 1999-2000 school year, dropout prevention programs as defined in ss. 1003.52, 1003.53(1)(a), (b), and (c), and 1003.54 shall be included in group 1 programs under subparagraph (d)3.

(h) Small, isolated high schools.—Districts which levy the maximum nonvoted discretionary millage, exclusive of millage for capital outlay purposes levied pursuant to s. 1011.71(2), may calculate full-time equivalent students for small, isolated high schools by multiplying the number of unweighted full-time equivalent students times 2.75; provided the school has attained a ~~state accountability performance~~ grade ~~category~~ of "C" or better, pursuant to s. 1008.34, for the previous school year. For the purpose of this section, the term "small, isolated high school" means any high school which is located no less than 28 miles by the shortest route from another high school; which has been serving students primarily in basic studies provided by sub-subparagraphs (c)1.b. and c. and may include subparagraph (c)4.; and which has a membership of no more than 100 students, but no fewer than 28 students, in grades 9 through 12.

(l) Calculation of additional full-time equivalent membership based on international baccalaureate examination scores of students.—A value of 0.24 full-time equivalent student membership shall be calculated for each student enrolled in an international baccalaureate course who receives a score of 4 or higher on a subject examination. A value of 0.3 full-time equivalent student membership shall be calculated for each student who receives an international baccalaureate diploma. Such value shall be added to the total full-time equivalent student membership in basic programs for grades 9 through 12 in the subsequent fiscal year. The school district shall distribute to each classroom teacher who provided international baccalaureate instruction:

1. A bonus in the amount of $50 for each student taught by the International Baccalaureate teacher in each international baccalaureate course who receives a score of 4 or higher on the international baccalaureate examination.

2. An additional bonus of $500 to each International Baccalaureate teacher in a school designated *with a* ~~performance~~ grade *of* ~~category~~ "D" or "F" who has at least one student scoring 4 or higher on the international baccalaureate examination, regardless of the number of classes taught or of the number of students scoring a 4 or higher on the international baccalaureate examination.

Bonuses awarded to a teacher according to this paragraph shall not exceed $2,000 in any given school year and shall be in addition to any regular wage or other bonus the teacher received or is scheduled to receive.

(m) Calculation of additional full-time equivalent membership based on Advanced International Certificate of Education examination scores of students.—A value of 0.24 full-time equivalent student membership shall be calculated for each student enrolled in a full-credit Advanced International Certificate of Education course who receives a score of E or higher on a subject examination. A value of 0.12 full-time equivalent student membership shall be calculated for each student enrolled in a half-credit Advanced International Certificate of Education course who receives a score of E or higher on a subject examination. A value of 0.3 full-time equivalent student membership shall be calculated for each student who receives an Advanced International Certificate of Education diploma. Such value shall be added to the total full-time equivalent student membership in basic programs for grades 9 through 12 in the subsequent fiscal year. The school district shall distribute to each classroom teacher who provided Advanced International Certificate of Education instruction:

1. A bonus in the amount of $50 for each student taught by the Advanced International Certificate of Education teacher in each full-credit Advanced International Certificate of Education course who receives a score of E or higher on the Advanced International Certificate of Education examination. A bonus in the amount of $25 for each student taught by the Advanced International Certificate of Education teacher in each half-credit Advanced International Certificate of Education course who receives a score of E or higher on the Advanced International Certificate of Education examination.

2. An additional bonus of $500 to each Advanced International Certificate of Education teacher in a school designated *with a* ~~performance~~ grade *of* ~~category~~ "D" or "F" who has at least one student scoring E or higher on the full-credit Advanced International Certificate of Education examination, regardless of the number of classes taught or of the number of students scoring an E or higher on the full-credit Advanced International Certificate of Education examination.

3. Additional bonuses of $250 each to teachers of half-credit Advanced International Certificate of Education classes in a school designated *with a* ~~performance~~ grade *of* ~~category~~ "D" or "F" which has at least one student scoring an E or higher on the half-credit Advanced International Certificate of Education examination in that class. The maximum additional bonus for a teacher awarded in accordance with this subparagraph shall not exceed $500 in any given school year. Teachers receiving an award under subparagraph 2. are not eligible for a bonus under this subparagraph.

Bonuses awarded to a teacher according to this paragraph shall not exceed $2,000 in any given school year and shall be in addition to any regular wage or other bonus the teacher received or is scheduled to receive.

(n) Calculation of additional full-time equivalent membership based on college board advanced placement scores of students.—A value of 0.24 full-time equivalent student membership shall be calculated for each student in each advanced placement course who receives a score of 3 or higher on the College Board Advanced Placement Examination for the prior year and added to the total full-time equivalent student membership in basic programs for grades 9 through 12 in the subsequent fiscal year. Each district must allocate at least 80 percent of the funds provided to the district for advanced placement instruction, in accordance with this paragraph, to the high school that generates the funds. The school district shall distribute to each classroom teacher who provided advanced placement instruction:

1. A bonus in the amount of $50 for each student taught by the Advanced Placement teacher in each advanced placement course who receives a score of 3 or higher on the College Board Advanced Placement Examination.

2. An additional bonus of $500 to each Advanced Placement teacher in a school designated *with a* ~~performance~~ grade *of* ~~category~~ "D" or "F" who has at least one student scoring 3 or higher on the College Board Advanced Placement Examination, regardless of the number of classes taught or of the number of students scoring a 3 or higher on the College Board Advanced Placement Examination.

Bonuses awarded to a teacher according to this paragraph shall not exceed $2,000 in any given school year and shall be in addition to any regular wage or other bonus the teacher received or is scheduled to receive.

(4) COMPUTATION OF DISTRICT REQUIRED LOCAL EFFORT.—The Legislature shall prescribe the aggregate required local effort for all school districts collectively as an item in the General Appropriations Act for each fiscal year. The amount that each district shall provide annually toward the cost of the Florida Education Finance Program for kindergarten through grade 12 programs shall be calculated as follows:

(a) Estimated taxable value calculations.—

1.a. Not later than 2 working days prior to July 19, the Department of Revenue shall certify to the Commissioner of Education its most recent estimate of the taxable value for school purposes in each school district and the total for all school districts in the state for the current calendar year based on the latest available data obtained from the local property appraisers. Not later than July 19, the Commissioner of Education shall compute a millage rate, rounded to the next highest one one-thousandth of a mill, which, when applied to 95 percent of the estimated state total taxable value for school purposes, would generate the prescribed aggregate required local effort for that year for all districts. The

Commissioner of Education shall certify to each district school board the millage rate, computed as prescribed in this subparagraph, as the minimum millage rate necessary to provide the district required local effort for that year.

b. The General Appropriations Act shall direct the computation of the statewide adjusted aggregate amount for required local effort for all school districts collectively from ad valorem taxes to ensure that no school district's revenue from required local effort millage will produce more than 90 percent of the district's total Florida Education Finance Program calculation, and the adjustment of the required local effort millage rate of each district that produces more than 90 percent of its total Florida Education Finance Program entitlement to a level that will produce only 90 percent of its total Florida Education Finance Program entitlement in the July calculation.

2. As revised data are received from property appraisers, the Department of Revenue shall amend the certification of the estimate of the taxable value for school purposes. The Commissioner of Education, in administering the provisions of subparagraph *(10)(a)2.* ~~(9)(a)2.~~, shall use the most recent taxable value for the appropriate year.

(b) Final calculation.—

1. The Department of Revenue shall, upon receipt of the official final assessed value of property from each of the property appraisers, certify to the Commissioner of Education the taxable value total for school purposes in each school district, subject to the provisions of paragraph (d). The commissioner shall use the official final taxable value for school purposes for each school district in the final calculation of the annual Florida Education Finance Program allocations.

2. For the purposes of this paragraph, the official final taxable value for school purposes shall be the taxable value for school purposes on which the tax bills are computed and mailed to the taxpayers, adjusted to reflect final administrative actions of value adjustment boards and judicial decisions pursuant to part I of chapter 194. By September 1 of each year, the Department of Revenue shall certify to the commissioner the official prior year final taxable value for school purposes. For each county that has not submitted a revised tax roll reflecting final value adjustment board actions and final judicial decisions, the Department of Revenue shall certify the most recent revision of the official taxable value for school purposes. The certified value shall be the final taxable value for school purposes, and no further adjustments shall be made, except those made pursuant to subparagraph *(10)(a)2.* ~~(9)(a)2.~~

(8) RESEARCH-BASED READING INSTRUCTION ALLOCATION.—

(a) The research-based reading instruction allocation is created to provide comprehensive reading instruction to students in kindergarten through grade 12.

(b) Funds for comprehensive, research-based reading instruction shall be allocated annually to each school district in the amount provided in the General Appropriations Act. Each eligible school district shall receive the same minimum amount as specified in the General Appropriations Act, and any remaining funds shall be distributed to eligible school districts based on each school district's proportionate share of K-12 base funding.

(c) Funds allocated under this subsection must be used to provide a system of comprehensive reading instruction to students enrolled in the K-12 programs, which may include the following:

1. The provision of highly qualified reading coaches.

2. Professional development for school district teachers in scientifically based reading instruction, including strategies to teach reading in content areas and with an emphasis on technical and informational text.

3. The provision of summer reading camps for students who score at Level 1 on FCAT Reading.

4. The provision of supplemental instructional materials that are grounded in scientifically based reading research.

5. The provision of intensive interventions for middle and high school students reading below grade level.

(d) Annually, by a date determined by the Department of Education but before May 1, school districts shall submit a K-12 comprehensive reading plan for the specific use of the research-based reading instruction allocation in the format prescribed by the department for review and approval by the Just Read, Florida! Office created pursuant to s. 1001.215. The plan annually submitted by school districts shall be deemed approved unless the department rejects the plan on or before June 1. If a school district and the Just Read, Florida! Office cannot reach agreement on the contents of the plan, the school district may appeal to the State Board of Education for resolution. School districts shall be allowed reasonable flexibility in designing their plans and shall be encouraged to offer reading remediation through innovative methods, including career academies. The plan format shall be developed with input from school district personnel, including teachers and principals, and shall allow courses in core, career, and alternative programs that deliver intensive reading remediation through integrated curricula, provided that the teacher is deemed highly qualified to teach reading or working toward that status. No later than July 1 annually, the department shall release the school district's allocation of appropriated funds to those districts having approved plans. A school district that spends 100 percent of this allocation on its approved plan shall be deemed to have been in compliance with the plan. The department may withhold funds upon a determination that reading instruction allocation funds are not being used to implement the approved plan.

(9)~~(8)~~ QUALITY ASSURANCE GUARANTEE.—The Legislature may annually in the General Appropriations Act determine a percentage increase in funds per K-12 unweighted FTE as a minimum guarantee to each school district. The guarantee shall be calculated from prior year base funding per unweighted FTE student which shall include the adjusted FTE dollars as provided in subsection *(10)* ~~(9)~~, quality guarantee funds, and actual nonvoted discretionary local effort from taxes. From the base funding per unweighted FTE, the increase shall be calculated for the current year. The current year funds from which the guarantee shall be determined shall include the adjusted FTE dollars as provided in subsection *(10)* ~~(9)~~ and potential nonvoted discretionary local effort from taxes. A comparison of current year funds per unweighted FTE to prior year funds per unweighted FTE shall be computed. For those school districts which have less than the legislatively assigned percentage increase, funds shall be provided to guarantee the assigned percentage increase in funds per unweighted FTE student. Should appropriated funds be less than the sum of this calculated amount for all districts, the commissioner shall prorate each district's allocation. This provision shall be implemented to the extent specifically funded.

(10)~~(9)~~ TOTAL ALLOCATION OF STATE FUNDS TO EACH DISTRICT FOR CURRENT OPERATION.—The total annual state allocation to each district for current operation for the FEFP shall be distributed periodically in the manner prescribed in the General Appropriations Act.

(a) The basic amount for current operation for the FEFP as determined in subsection (1), multiplied by the district cost differential factor as determined in subsection (2), plus the amounts provided for categorical components within the FEFP, plus the amount for the sparsity supplement as determined in subsection (6), the decline in full-time equivalent students as determined in subsection (7), *the research-based reading instruction allocation as determined in subsection (8),* and the quality assurance guarantee as determined in subsection *(9)* ~~(8)~~, less the required local effort as determined in subsection (4). If the funds appropriated for the purpose of funding the total amount for current operation as provided in this paragraph are not sufficient to pay the state requirement in full, the department shall prorate the available state funds to each district in the following manner:

1. Determine the percentage of proration by dividing the sum of the total amount for current operation, as provided in this paragraph for all districts collectively, and the total district required local effort into the sum of the state funds available for current operation and the total district required local effort.

2. Multiply the percentage so determined by the sum of the total amount for current operation as provided in this paragraph and the required local effort for each individual district.

3. From the product of such multiplication, subtract the required local effort of each district; and the remainder shall be the amount of state funds allocated to the district for current operation.

(b) The amount thus obtained shall be the net annual allocation to each school district. However, if it is determined that any school district received an underallocation or overallocation for any prior year because of an arithmetical error, assessment roll change, full-time equivalent student membership error, or any allocation error revealed in an audit report, the allocation to that district shall be appropriately adjusted. Beginning with audits for the 2001-2002 fiscal year, if the adjustment is the result of an audit finding in which group 2 FTE are reclassified to the basic program and the district weighted FTE are over the weighted enrollment ceiling for group 2 programs, the adjustment shall not result in a gain of state funds to the district. If the Department of Education audit adjustment recommendation is based upon controverted findings of fact, the Commissioner of Education is authorized to establish the amount of the adjustment based on the best interests of the state.

SM 2626—A memorial to the Congress of the United States, urging Congress to establish a Catastrophic Natural Disaster Insurance Fund.

WHEREAS, the massive devastation wrought by Hurricane Katrina, Rita, and Wilma in 2005 demonstrated the far-reaching consequences of catastrophic events and the need for new legislation establishing federal catastrophic natural disaster insurance, and

WHEREAS, a catastrophic natural disaster such as Hurricane Katrina can lead to economic devastation throughout the country, including in many states in which the event did not occur, and

WHEREAS, ultimately the United States Government must pay for such catastrophic natural disasters as evidenced by Hurricane Katrina, and

WHEREAS, scientists warn than an even more damaging, $100-billion storm is inevitable and predict particularly active hurricane seasons in years to come, and

WHEREAS, other recent natural disasters, including wildfires in California and tornadoes and flooding throughout the Midwest, have caused millions of dollars in insured losses and the displacement of thousands of insurance consumers, and

WHEREAS, natural hazards, including volcanoes in the Pacific Northwest and Hawaii and earthquakes in the West and along the Midwest's New Madrid fault line, continue to threaten insurance markets and consumers across the nation, and

WHEREAS, insurance protection against hurricane damage has been difficult to obtain at reasonable premium rates for many residents of the United States and coastal states in particular, and

WHEREAS, property and casualty insurers are withdrawing underwriting capacity from the market by refusing to issue new policies or renew existing policies or by increasing premiums to unaffordable levels, and

WHEREAS, the unavailability and increasing cost of homeowners' insurance presents a significant impediment to home ownership for Floridians, and

WHEREAS, the establishment of a Catastrophic Natural Disaster Insurance Fund that pays for damages above a significant, predetermined amount, providing a backstop, would limit uncertainty in insurance underwriting and stabilize the insurance market, thereby increasing the availability and affordability of property and casualty insurance, including homeowners' insurance in the State of Florida, NOW, THEREFORE,

Be It Resolved by the Legislature of the State of Florida:

That the Congress of the United States of America is urged to enact catastrophic natural disaster insurance legislation, including a Catastrophic Natural Disaster Insurance Fund that does not increase policyholder premiums, and to recognize the time sensitivity of this matter and act in all expediency.

BE IT FURTHER RESOLVED that copies of this memorial be dispatched to the President of the United States, to the President of the United States Senate, to the Speaker of the United States House of Representatives, and to each member of the Florida delegation to the United States Congress.

b. Support for local government implementation of rural land stewardship concepts by providing information and assistance to local governments regarding land acquisition programs that may be used by the local government or landowners to leverage the protection of greater acreage and maximize the effectiveness of rural land stewardship areas; and

c. Expansion of the role of the Department of Community Affairs as a resource agency to facilitate establishment of rural land stewardship areas in smaller rural counties that do not have the staff or planning budgets to create a rural land stewardship area.

2. The department shall encourage participation by local governments of different sizes and rural characteristics in establishing and implementing rural land stewardship areas. It is the intent of the Legislature that rural land stewardship areas be used to further the following broad principles of rural sustainability: restoration and maintenance of the economic value of rural land; control of urban sprawl; identification and protection of ecosystems, habitats, and natural resources; promotion of rural economic activity; maintenance of the viability of Florida's agricultural economy; and protection of the character of rural areas of Florida. Rural land stewardship areas may be multicounty in order to encourage coordinated regional stewardship planning.

3. A local government, in conjunction with a regional planning council, a stakeholder organization of private land owners, or another local government, shall notify the department in writing of its intent to designate a rural land stewardship area. The written notification shall describe the basis for the designation, including the extent to which the rural land stewardship area enhances rural land values, controls urban sprawl, provides necessary open space for agriculture and protection of the natural environment, promotes rural economic activity, and maintains rural character and the economic viability of agriculture.

4. A rural land stewardship area shall be not less than 10,000 acres and shall be located outside of municipalities and established urban growth boundaries, and shall be designated by plan amendment. The plan amendment designating a rural land stewardship area shall be subject to review by the Department of Community Affairs pursuant to s. 163.3184 and shall provide for the following:

a. Criteria for the designation of receiving areas within rural land stewardship areas in which innovative planning and development strategies may be applied. Criteria shall at a minimum provide for the following: adequacy of suitable land to accommodate development so as to avoid conflict with environmentally sensitive areas, resources, and habitats; compatibility between and transition from higher density uses to lower intensity rural uses; the establishment of receiving area service boundaries which provide for a separation between receiving areas and other land uses within the rural land stewardship area through limitations on the extension of services; and connection of receiving areas with the rest of the rural land stewardship area using rural design and rural road corridors.

b. Goals, objectives, and policies setting forth the innovative planning and development strategies to be applied within rural land stewardship areas pursuant to the provisions of this section.

c. A process for the implementation of innovative planning and development strategies within the rural land stewardship area, including those described in this subsection and rule 9J-5.006(5)(l), Florida Administrative Code, which provide for a functional mix of land uses, including adequate available workforce housing, including low, very-low and moderate income housing for the development anticipated in the receiving area and which are applied through the adoption by the local government of zoning and land development regulations applicable to the rural land stewardship area.

d. A process which encourages visioning pursuant to s. 163.3167(11) to ensure that innovative planning and development strategies comply with the provisions of this section.

e. The control of sprawl through the use of innovative strategies and creative land use techniques consistent with the provisions of this subsection and rule 9J-5.006(5)(l), Florida Administrative Code.

5. A receiving area shall be designated by the adoption of a land development regulation. Prior to the designation of a receiving area, the local government shall provide the Department of Community Affairs a period of 30 days in which to review a proposed receiving area for consistency with the rural land stewardship area plan amendment and to provide comments to the local government. At the time of designation of a stewardship receiving area, a listed species survey will be performed. If listed species occur on the receiving area site, the developer shall coordinate with each appropriate local, state, or federal agency to determine if adequate provisions have been made to protect those species in accordance with applicable regulations. In determining the adequacy of provisions for the protection of listed species and their habitats, the rural land stewardship area shall be considered as a whole, and the impacts to areas to be developed as receiving areas shall be considered together with the environmental benefits of areas protected as sending areas in fulfilling this criteria.

6. Upon the adoption of a plan amendment creating a rural land stewardship area, the local government shall, by ordinance, establish

the methodology for the creation, conveyance, and use of transferable rural land use credits, otherwise referred to as stewardship credits, the application of which shall not constitute a right to develop land, nor increase density of land, except as provided by this section. The total amount of transferable rural land use credits within the rural land stewardship area must enable the realization of the long-term vision and goals for the 25-year or greater projected population of the rural land stewardship area*, which may take into consideration the anticipated effect of the proposed receiving areas*. Transferable rural land use credits are subject to the following limitations:

a. Transferable rural land use credits may only exist within a rural land stewardship area.

b. Transferable rural land use credits may only be used on lands designated as receiving areas and then solely for the purpose of implementing innovative planning and development strategies and creative land use planning techniques adopted by the local government pursuant to this section.

c. Transferable rural land use credits assigned to a parcel of land within a rural land stewardship area shall cease to exist if the parcel of land is removed from the rural land stewardship area by plan amendment.

d. Neither the creation of the rural land stewardship area by plan amendment nor the assignment of transferable rural land use credits by the local government shall operate to displace the underlying density of land uses assigned to a parcel of land within the rural land stewardship area; however, if transferable rural land use credits are transferred from a parcel for use within a designated receiving area, the underlying density assigned to the parcel of land shall cease to exist.

e. The underlying density on each parcel of land located within a rural land stewardship area shall not be increased or decreased by the local government, except as a result of the conveyance or use of transferable rural land use credits, as long as the parcel remains within the rural land stewardship area.

f. Transferable rural land use credits shall cease to exist on a parcel of land where the underlying density assigned to the parcel of land is utilized.

g. An increase in the density of use on a parcel of land located within a designated receiving area may occur only through the assignment or use of transferable rural land use credits and shall not require a plan amendment.

h. A change in the density of land use on parcels located within receiving areas shall be specified in a development order which reflects the total number of transferable rural land use credits assigned to the parcel of land and the infrastructure and support services necessary to provide for a functional mix of land uses corresponding to the plan of development.

i. Land within a rural land stewardship area may be removed from the rural land stewardship area through a plan amendment.

j. Transferable rural land use credits may be assigned at different ratios of credits per acre according to the natural resource or other beneficial use characteristics of the land and according to the land use remaining following the transfer of credits, with the highest number of credits per acre assigned to the most environmentally valuable land or, in locations where the retention of open space and agricultural land is a priority, to such lands.

k. The use or conveyance of transferable rural land use credits must be recorded in the public records of the county in which the property is located as a covenant or restrictive easement running with the land in favor of the county and either the Department of Environmental Protection, Department of Agriculture and Consumer Services, a water management district, or a recognized statewide land trust.

7. Owners of land within rural land stewardship areas should be provided incentives to enter into rural land stewardship agreements, pursuant to existing law and rules adopted thereto, with state agencies, water management districts, and local governments to achieve mutually agreed upon conservation objectives. Such incentives may include, but not be limited to, the following:

a. Opportunity to accumulate transferable mitigation credits.

b. Extended permit agreements.

c. Opportunities for recreational leases and ecotourism.

d. Payment for specified land management services on publicly owned land, or property under covenant or restricted easement in favor of a public entity.

e. Option agreements for sale to public entities or private land conservation entities, in either fee or easement, upon achievement of conservation objectives.

8. The department shall report to the Legislature on an annual basis on the results of implementation of rural land stewardship areas authorized by the department, including successes and failures in achieving the intent of the Legislature as expressed in this paragraph.

Section 2. Paragraph (a) of subsection (12) of section 163.3180, Florida Statutes, is amended to read:

163.3180 Concurrency.—

(12) When authorized by a local comprehensive plan, a multiuse development of regional impact may satisfy the transportation concurrency requirements of the local comprehensive plan, the local government's concurrency management system, and s. 380.06 by payment of a proportionate-share contribution for local and regionally significant traffic impacts, if:

(a) The development of regional impact meets or exceeds the guidelines and standards of s. 380.0651(3)*(h)*~~(i)~~ and rule 28-24.032(2), Florida Administrative Code, and includes a residential component that contains at least 100 residential dwelling units or 15 percent of the applicable residential guideline and standard, whichever is greater;

The proportionate-share contribution may be applied to any transportation facility to satisfy the provisions of this subsection and the local comprehensive plan, but, for the purposes of this subsection, the amount of the proportionate-share contribution shall be calculated based upon the cumulative number of trips from the proposed development expected to reach roadways during the peak hour from the complete buildout of a stage or phase being approved, divided by the change in the peak hour maximum service volume of roadways resulting from construction of an improvement necessary to maintain the adopted level of service, multiplied by the construction cost, at the time of developer payment, of the improvement necessary to maintain the adopted level of service. For purposes of this subsection, "construction cost" includes all associated costs of the improvement.

Section 3. Subsection (3) of section 197.303, Florida Statutes, is amended to read:

197.303 Ad valorem tax deferral for recreational and commercial working waterfront properties.—

(3) The ordinance shall designate the *percentage or amount of the deferral and the* type and location of working waterfront property*, including the type of public lodging establishments,* for which deferrals may be granted, which may include any property meeting the provisions of s. 342.07(2), which property may be further required to be located within a particular geographic area or areas of the county or municipality.

Section 4. Section 342.07, Florida Statutes, is amended to read:

342.07 Recreational and commercial working waterfronts; legislative findings; definitions.—

(1) The Legislature recognizes that there is an important state interest in facilitating boating *and other recreational* access to the state's navigable waters. This access is vital to *tourists and* recreational users and the marine industry in the state, to maintaining or enhancing the *$57 billion economic impact of tourism and the* $14 billion economic impact of boating in the state *annually*, and to ensuring continued access to all residents and visitors to the navigable waters of the state. The Legislature recognizes that there is an important state interest in maintaining viable water-dependent support facilities, such as *public lodging establishments and* boat hauling and repairing and commercial fishing

facilities, and in maintaining the availability of public access to the navigable waters of the state. The Legislature further recognizes that the waterways of the state are important for engaging in commerce and the transportation of goods and people upon such waterways and that such commerce and transportation is not feasible unless there is access to and from the navigable waters of the state through recreational and commercial working waterfronts.

(2) As used in this section, the term "recreational and commercial working waterfront" means a parcel or parcels of real property that provide access for water-dependent commercial *and recreational* activities*, including public lodging establishments as defined in chapter 509,* or provide access for the public to the navigable waters of the state. Recreational and commercial working waterfronts require direct access to or a location on, over, or adjacent to a navigable body of water. The term includes water-dependent facilities that are open to the public and offer public access by vessels to the waters of the state or that are support facilities for recreational, commercial, research, or governmental vessels. These facilities include *public lodging establishments,* docks, wharfs, lifts, wet and dry marinas, boat ramps, boat hauling and repair facilities, commercial fishing facilities, boat construction facilities, and other support structures over the water. As used in this section, the term "vessel" has the same meaning as in s. 327.02(37). Seaports are excluded from the definition.

Section 5. Section 373.4132, Florida Statutes, is created to read:

373.4132 Dry storage facility permitting.—The governing board or the department shall require a permit under this part, including s. 373.4145, for the construction, alteration, operation, maintenance, abandonment, or removal of a dry storage facility for 10 or more vessels that is functionally associated with a boat launching area. As part of an applicant's demonstration that such a facility will not be harmful to the water resources and will not be inconsistent with the overall objectives of the district, the governing board or department shall require the applicant to provide reasonable assurance that the secondary impacts from the facility will not cause adverse impacts to the functions of wetlands and surface waters, including violations of state water quality standards applicable to waters as defined in s. 403.031(13), and will meet the public interest test of s. 373.414(1)(a), including the potential adverse impacts to manatees. Nothing in this section shall affect the authority of the governing board or the department to regulate such secondary impacts under this part for other regulated activities.

Section 6. Paragraph (d) of subsection (2), paragraphs (a) and (i) of subsection (4), and subsections (15), (19), and (24) of section 380.06, Florida Statutes, are amended, and subsection (28) is added to that section, to read:

380.06 Developments of regional impact.—

(2) STATEWIDE GUIDELINES AND STANDARDS.—

(d) The guidelines and standards shall be applied as follows:

1. Fixed thresholds.—

a. A development that is below 100 percent of all numerical thresholds in the guidelines and standards shall not be required to undergo development-of-regional-impact review.

b. A development that is at or above 120 percent of any numerical threshold shall be required to undergo development-of-regional-impact review.

c. Projects certified under s. 403.973 which create at least 100 jobs and meet the criteria of the Office of Tourism, Trade, and Economic Development as to their impact on an area's economy, employment, and prevailing wage and skill levels that are at or below 100 percent of the numerical thresholds for industrial plants, industrial parks, distribution, warehousing or wholesaling facilities, office development or multiuse projects other than residential, as described in s. 380.0651(3)(c), (d), and *(h)*~~(i)~~, are not required to undergo development-of-regional-impact review.

2. Rebuttable presumption.—It shall be presumed that a development that is at 100 percent or between 100 and 120 percent of a numerical threshold shall be required to undergo development-of-regional-impact review.

(4) BINDING LETTER.—

(a) If any developer is in doubt whether his or her proposed development must undergo development-of-regional-impact review under the guidelines and standards, whether his or her rights have vested pursuant to subsection (20), or whether a proposed substantial change to a development of regional impact concerning which rights had previously vested pursuant to subsection (20) would divest such rights, the developer may request a determination from the state land planning agency. *The developer or the appropriate local government having jurisdiction may request that the state land planning agency determine whether the amount of development that remains to be built in an approved development of regional impact meets the criteria of subparagraph (15)(g)3.*

(i) In response to an inquiry from a developer *or the appropriate local government having jurisdiction*, the state land planning agency may issue an informal determination in the form of a clearance letter as to whether a development is required to undergo development-of-regional-impact review *or whether the amount of development that remains to be built in an approved development of regional impact meets the criteria of subparagraph (15)(g)3*. A clearance letter may be based solely on the information provided by the developer, and the state land planning agency is not required to conduct an investigation of that information. If any material information provided by the developer is incomplete or inaccurate, the clearance letter is not binding upon the state land planning agency. A clearance letter does not constitute final agency action.

(15) LOCAL GOVERNMENT DEVELOPMENT ORDER.—

(a) The appropriate local government shall render a decision on the application within 30 days after the hearing unless an extension is requested by the developer.

(b) When possible, local governments shall issue development orders concurrently with any other local permits or development approvals that may be applicable to the proposed development.

(c) The development order shall include findings of fact and conclusions of law consistent with subsections (13) and (14). The development order:

1. Shall specify the monitoring procedures and the local official responsible for assuring compliance by the developer with the development order.

2. Shall establish compliance dates for the development order, including a deadline for commencing physical development and for compliance with conditions of approval or phasing requirements, and shall include a *buildout* ~~termination~~ date that reasonably reflects the time *anticipated* ~~required~~ to complete the development.

3. Shall establish a date until which the local government agrees that the approved development of regional impact shall not be subject to downzoning, unit density reduction, or intensity reduction, unless the local government can demonstrate that substantial changes in the conditions underlying the approval of the development order have occurred or the development order was based on substantially inaccurate information provided by the developer or that the change is clearly established by local government to be essential to the public health, safety, or welfare. *The date established pursuant to this subparagraph shall be no sooner than the buildout date of the project.*

4. Shall specify the requirements for the biennial report designated under subsection (18), including the date of submission, parties to whom the report is submitted, and contents of the report, based upon the rules adopted by the state land planning agency. Such rules shall specify the scope of any additional local requirements that may be necessary for the report.

5. May specify the types of changes to the development which shall require submission for a substantial deviation determination *or a notice of proposed change* under subsection (19).

6. Shall include a legal description of the property.

(d) Conditions of a development order that require a developer to contribute land for a public facility or construct, expand, or pay for land acquisition or construction or expansion of a public facility, or portion thereof, shall meet the following criteria:

1. The need to construct new facilities or add to the present system of public facilities must be reasonably attributable to the proposed development.

2. Any contribution of funds, land, or public facilities required from the developer shall be comparable to the amount of funds, land, or public facilities that the state or the local government would reasonably expect to expend or provide, based on projected costs of comparable projects, to mitigate the impacts reasonably attributable to the proposed development.

3. Any funds or lands contributed must be expressly designated and used to mitigate impacts reasonably attributable to the proposed development.

4. Construction or expansion of a public facility by a nongovernmental developer as a condition of a development order to mitigate the impacts reasonably attributable to the proposed development is not subject to competitive bidding or competitive negotiation for selection of a contractor or design professional for any part of the construction or design ~~unless required by the local government that issues the development order~~.

(e)1. ~~Effective July 1, 1986,~~ A local government shall not include, as a development order condition for a development of regional impact, any requirement that a developer contribute or pay for land acquisition or construction or expansion of public facilities or portions thereof unless the local government has enacted a local ordinance which requires other development not subject to this section to contribute its proportionate share of the funds, land, or public facilities necessary to accommodate any impacts having a rational nexus to the proposed development, and the need to construct new facilities or add to the present system of public facilities must be reasonably attributable to the proposed development.

2. A local government shall not approve a development of regional impact that does not make adequate provision for the public facilities needed to accommodate the impacts of the proposed development unless the local government includes in the development order a commitment by the local government to provide these facilities consistently with the development schedule approved in the development order; however, a local government's failure to meet the requirements of subparagraph 1. and this subparagraph shall not preclude the issuance of a development order where adequate provision is made by the developer for the public facilities needed to accommodate the impacts of the proposed development. Any funds or lands contributed by a developer must be expressly designated and used to accommodate impacts reasonably attributable to the proposed development.

3. The Department of Community Affairs and other state and regional agencies involved in the administration and implementation of this act shall cooperate and work with units of local government in preparing and adopting local impact fee and other contribution ordinances.

(f) Notice of the adoption of a development order or the subsequent amendments to an adopted development order shall be recorded by the developer, in accordance with s. 28.222, with the clerk of the circuit court for each county in which the development is located. The notice shall include a legal description of the property covered by the order and shall state which unit of local government adopted the development order, the date of adoption, the date of adoption of any amendments to the development order, the location where the adopted order with any amendments may be examined, and that the development order constitutes a land development regulation applicable to the property. The recording of this notice shall not constitute a lien, cloud, or encumbrance on real property, or actual or constructive notice of any such lien, cloud, or encumbrance. This paragraph applies only to developments initially approved under this section after July 1, 1980.

(g) A local government shall not issue permits for development subsequent to the *buildout* ~~termination date or expiration~~ date contained in the development order unless:

1. The proposed development has been evaluated cumulatively with existing development under the substantial deviation provisions of subsection (19) subsequent to the termination or expiration date;

2. The proposed development is consistent with an abandonment of development order that has been issued in accordance with the provisions of subsection (26); ~~or~~

3. The development of regional impact is essentially built out, in that all the mitigation requirements in the development order have been satisfied, all developers are in compliance with all applicable terms and conditions of the development order except the buildout date, and the amount of proposed development that remains to be built is less than 20 percent of any applicable development-of-regional-impact threshold; or

4.~~3.~~ The project has been determined to be an essentially built-out development of regional impact through an agreement executed by the developer, the state land planning agency, and the local government, in accordance with s. 380.032, which will establish the terms and conditions under which the development may be continued. If the project is determined to be essentially *built out* ~~built-out~~, development may proceed pursuant to the s. 380.032 agreement after the termination or expiration date contained in the development order without further development-of-regional-impact review subject to the local government comprehensive plan and land development regulations or subject to a modified development-of-regional-impact analysis. As used in this paragraph, an "essentially built-out" development of regional impact means:

a. The *developers are* ~~development is~~ in compliance with all applicable terms and conditions of the development order except the *buildout* ~~built-out~~ date; and

b.(I) The amount of development that remains to be built is less than the substantial deviation threshold specified in paragraph (19)(b) for each individual land use category, or, for a multiuse development, the sum total of all unbuilt land uses as a percentage of the applicable substantial deviation threshold is equal to or less than 100 percent; or

(II) The state land planning agency and the local government have agreed in writing that the amount of development to be built does not create the likelihood of any additional regional impact not previously reviewed.

The single-family residential portions of a development may be considered "essentially built out" if all of the workforce housing obligations and all of the infrastructure and horizontal development have been completed, at least 50 percent of the dwelling units have been completed, and more than 80 percent of the lots have been conveyed to third-party individual lot owners or to individual builders who own no more than 40 lots at the time of the determination. The mobile home park portions of a development may be considered "essentially built out" if all the infrastructure and horizontal development has been completed, and at least 50 percent of the lots are leased to individual mobile home owners.

(h) If the property is annexed by another local jurisdiction, the annexing jurisdiction shall adopt a new development order that incorporates all previous rights and obligations specified in the prior development order.

(19) SUBSTANTIAL DEVIATIONS.—

(a) Any proposed change to a previously approved development which creates a reasonable likelihood of additional regional impact, or any type of regional impact created by the change not previously reviewed by the regional planning agency, shall constitute a substantial deviation and shall cause the *proposed change* ~~development~~ to be subject to further development-of-regional-impact review. There are a variety of reasons why a developer may wish to propose changes to an approved development of regional impact, including changed market conditions. The procedures set forth in this subsection are for that purpose.

(b) Any proposed change to a previously approved development of regional impact or development order condition which, either individually or cumulatively with other changes, exceeds any of the following criteria shall constitute a substantial deviation and shall cause the development to be subject to further development-of-regional-impact review without the necessity for a finding of same by the local government:

1. An increase in the number of parking spaces at an attraction or recreational facility by *10* ~~5~~ percent or *330* ~~300~~ spaces, whichever is greater, or an increase in the number of spectators that may be accommodated at such a facility by *10* ~~5~~ percent or *1,100* ~~1,000~~ spectators, whichever is greater.

2. A new runway, a new terminal facility, a 25-percent lengthening of an existing runway, or a 25-percent increase in the number of gates of an existing terminal, but only if the increase adds at least three additional gates.

~~3. An increase in the number of hospital beds by 5 percent or 60 beds, whichever is greater.~~

3.~~4.~~ An increase in industrial development area by *10* ~~5~~ percent or *35* ~~32~~ acres, whichever is greater.

4.~~5.~~ An increase in the average annual acreage mined by *10* ~~5~~ percent or *11* ~~10~~ acres, whichever is greater, or an increase in the average daily water consumption by a mining operation by *10* ~~5~~ percent or *330,000* ~~300,000~~ gallons, whichever is greater. *A net* ~~An~~ increase in the size of the mine by *10* ~~5~~ percent or *825* ~~750~~ acres, whichever is less. *For purposes of calculating any net increases in size, only additions and deletions of lands that have not been mined shall be considered.* An increase in the size of a heavy mineral mine as defined in s. 378.403(7) will only constitute a substantial deviation if the average annual acreage mined is more than *550* ~~500~~ acres and consumes more than *3.3* ~~3~~ million gallons of water per day.

5.~~6.~~ An increase in land area for office development by *10* ~~5~~ percent or an increase of gross floor area of office development by *10* ~~5~~ percent or *66,000* ~~60,000~~ gross square feet, whichever is greater.

~~7. An increase in the storage capacity for chemical or petroleum storage facilities by 5 percent, 20,000 barrels, or 7 million pounds, whichever is greater.~~

~~8. An increase of development at a waterport of wet storage for 20 watercraft, dry storage for 30 watercraft, or wet/dry storage for 60 watercraft in an area identified in the state marina siting plan as an appropriate site for additional waterport development or a 5 percent increase in watercraft storage capacity, whichever is greater.~~

6.~~9.~~ An increase in the number of dwelling units by *10* ~~5~~ percent or *55* ~~50~~ dwelling units, whichever is greater.

7. An increase in the number of dwelling units by 50 percent or 200 units, whichever is greater, provided that 15 percent of the proposed additional dwelling units are dedicated to affordable workforce housing, subject to a recorded land use restriction, which includes resale provisions and provision for the workforce housing to be commenced prior to the completion of 50 percent of the market rate dwelling. For purposes of this subparagraph, the term "affordable workforce housing" means housing that is affordable to a person who earns less than 120 percent of the area median income, or less than 140 percent of the area median income if located in a county in which the median purchase price for a single-family existing home exceeds the statewide median purchase price of a single-family existing home. For purposes of this subparagraph, the term "statewide median purchase price of a single-family existing home" means the statewide purchase price as determined in the Florida Sales Report, Single-Family Existing Homes, released each January by the Florida Association of Realtors and the University of Florida Real Estate Research Center.

8.~~10.~~ An increase in commercial development by *55,000* ~~50,000~~ square feet of gross floor area or of parking spaces provided for customers for *330* ~~300~~ cars or a *10-percent* ~~5-percent~~ increase of either of these, whichever is greater.

9.~~11.~~ An increase in hotel or motel *rooms* ~~facility units~~ by *10* ~~5~~ percent or *83 rooms* ~~75 units~~, whichever is greater.

10.~~12.~~ An increase in a recreational vehicle park area by *10* ~~5~~ percent or *110* ~~100~~ vehicle spaces, whichever is less.

11.~~13.~~ A decrease in the area set aside for open space of 5 percent or 20 acres, whichever is less.

12.~~14.~~ A proposed increase to an approved multiuse development of regional impact where the sum of the increases of each land use as a percentage of the applicable substantial deviation criteria is equal to or exceeds *110* ~~100~~ percent. The percentage of any decrease in the amount of open space shall be treated as an increase for purposes of determining when *110* ~~100~~ percent has been reached or exceeded.

13.~~15.~~ A 15-percent increase in the number of external vehicle trips generated by the development above that which was projected during the original development-of-regional-impact review.

14.~~16.~~ Any change which would result in development of any area which was specifically set aside in the application for development approval or in the development order for preservation or special protection of endangered or threatened plants or animals designated as endangered, threatened, or species of special concern and their habitat, *any species protected by 16 U.S.C. s. 668a-668d,* primary dunes, or archaeological and historical sites designated as significant by the Division of Historical Resources of the Department of State. The ~~further~~ refinement of *the boundaries and configuration of* such areas ~~by survey~~ shall be considered under sub-subparagraph *(e)2.j.* ~~(e)5.b.~~

The substantial deviation numerical standards in subparagraphs *3., 5., 8., 9., and 12.* ~~4., 6., 10., 14.~~, excluding residential uses, and *in subparagraph 13.* ~~15.,~~ are increased by 100 percent for a project certified under s. 403.973 which creates jobs and meets criteria established by the Office of Tourism, Trade, and Economic Development as to its impact on an area's economy, employment, and prevailing wage and skill levels. The substantial deviation numerical standards in subparagraphs *3., 5., 6., 7., 8., 9., 12., and 13.* ~~4., 6., 9., 10., 11., and 14.~~ are increased by 50 percent for a project located wholly within an urban infill and redevelopment area designated on the applicable adopted local comprehensive plan future land use map and not located within the coastal high hazard area.

(c) An extension of the date of buildout of a development, or any phase thereof, by *more than* 7 ~~or more~~ years shall be presumed to create a substantial deviation subject to further development-of-regional-impact review. An extension of the date of buildout, or any phase thereof, of *more than* 5 years ~~or more~~ but *not more* ~~less~~ than 7 years shall be presumed not to create a substantial deviation. The extension of the date of buildout of an areawide development of regional impact by more than 5 years but less than 10 years is presumed not to create a substantial deviation. These presumptions may be rebutted by clear and convincing evidence at the public hearing held by the local government. An extension of *5 years or* less ~~than 5 years~~ is not a substantial deviation. For the purpose of calculating when a buildout *or*~~,~~ phase~~, or termination~~ date has been exceeded, the time shall be tolled during the pendency of administrative or judicial proceedings relating to development permits. Any extension of the buildout date of a project or a phase thereof shall automatically extend the commencement date of the project, the termination date of the development order, the expiration date of the development of regional impact, and the phases thereof *if applicable* by a like period of time.

(d) A change in the plan of development of an approved development of regional impact resulting from requirements imposed by the Department of Environmental Protection or any water management district created by s. 373.069 or any of their successor agencies or by any appropriate federal regulatory agency shall be submitted to the local government pursuant to this subsection. The change shall be presumed not to create a substantial deviation subject to further development-of-regional-impact review. The presumption may be rebutted by clear and convincing evidence at the public hearing held by the local government.

(e)1. Except for a development order rendered pursuant to subsection (22) or subsection (25), a proposed change to a development order that individually or cumulatively with any previous change is less than any numerical criterion contained in subparagraphs *(b)1.-13.* ~~(b)1.-15.~~ and does not exceed any other criterion, or that involves an extension of the buildout date of a development, or any phase thereof, of less than 5 years is not subject to the public hearing requirements of subparagraph (f)3., and is not subject to a determination pursuant to subparagraph (f)5. Notice of the proposed change shall be made to the regional planning council and the state land planning agency. Such notice shall include a description of previous individual changes made to the development, including changes previously approved by the local government, and shall include appropriate amendments to the development order.

2. The following changes, individually or cumulatively with any previous changes, are not substantial deviations:

a. Changes in the name of the project, developer, owner, or monitoring official.

b. Changes to a setback that do not affect noise buffers, environmental protection or mitigation areas, or archaeological or historical resources.

c. Changes to minimum lot sizes.

d. Changes in the configuration of internal roads that do not affect external access points.

e. Changes to the building design or orientation that stay approximately within the approved area designated for such building and parking lot, and which do not affect historical buildings designated as significant by the Division of Historical Resources of the Department of State.

f. Changes to increase the acreage in the development, provided that no development is proposed on the acreage to be added.

g. Changes to eliminate an approved land use, provided that there are no additional regional impacts.

h. Changes required to conform to permits approved by any federal, state, or regional permitting agency, provided that these changes do not create additional regional impacts.

i. Any renovation or redevelopment of development within a previously approved development of regional impact which does not change land use or increase density or intensity of use.

j. Changes that modify boundaries and configuration of areas described in subparagraph (b)14. due to science-based refinement of such areas by survey, by habitat evaluation, by other recognized assessment methodology, or by an environmental assessment. In order for changes to qualify under this sub-subparagraph, the survey, habitat evaluation, or assessment must occur prior to the time a conservation easement protecting such lands is recorded and must not result in any net decrease in the total acreage of the lands specifically set aside for permanent preservation in the final development order.

k.~~j.~~ Any other change which the state land planning agency, *in consultation with the regional planning council,* agrees in writing is similar in nature, impact, or character to the changes enumerated in sub-subparagraphs *a.-j.* ~~a.-i.~~ and which does not create the likelihood of any additional regional impact.

This subsection does not require *the filing of a notice of proposed change but shall require an application to the local government to amend the development order in accordance with the local government's procedures for amendment of a development order. In accordance with the local government's procedures, including requirements for notice to the applicant and the public, the local government shall either deny the application for amendment or adopt an amendment to the development order which approves the application with or without conditions. Following adoption, the local government shall render to the state land planning agency the amendment to the development order. The state land planning agency may appeal, pursuant to s. 380.07(3), the amendment to the development order if the amendment involves sub-subparagraph g., sub-subparagraph h., sub-subparagraph j., or sub-subparagraph k. and it believes the change creates a reasonable likelihood of new or additional regional impacts* ~~a development order amendment for any change listed in sub-subparagraphs a.-j. unless such issue is addressed either in the existing development order or in the application for development approval, but, in the case of the application, only if, and in the manner in which, the application is incorporated in the development order~~.

3. Except for the change authorized by sub-subparagraph 2.f., any addition of land not previously reviewed or any change not specified in paragraph (b) or paragraph (c) shall be presumed to create a substantial deviation. This presumption may be rebutted by clear and convincing evidence.

4. Any submittal of a proposed change to a previously approved development shall include a description of individual changes previously made to the development, including changes previously approved by the local government. The local government shall consider the previous and current proposed changes in deciding whether such changes cumulatively constitute a substantial deviation requiring further development-of-regional-impact review.

5. The following changes to an approved development of regional impact shall be presumed to create a substantial deviation. Such presumption may be rebutted by clear and convincing evidence.

a. A change proposed for 15 percent or more of the acreage to a land use not previously approved in the development order. Changes of less than 15 percent shall be presumed not to create a substantial deviation.

~~b. Except for the types of uses listed in subparagraph (b)16., any change which would result in the development of any area which was specifically set aside in the application for development approval or in the development order for preservation, buffers, or special protection, including habitat for plant and animal species, archaeological and historical sites, dunes, and other special areas.~~

b.~~e.~~ Notwithstanding any provision of paragraph (b) to the contrary, a proposed change consisting of simultaneous increases and decreases of at least two of the uses within an authorized multiuse development of regional impact which was originally approved with three or more uses specified in s. 380.0651(3)(c), (d), *(e)*~~(f)~~, and *(f)*~~(g)~~ and residential use.

(f)1. The state land planning agency shall establish by rule standard forms for submittal of proposed changes to a previously approved development of regional impact which may require further development-of-regional-impact review. At a minimum, the standard form shall require the developer to provide the precise language that the developer proposes to delete or add as an amendment to the development order.

2. The developer shall submit, simultaneously, to the local government, the regional planning agency, and the state land planning agency the request for approval of a proposed change.

3. No sooner than 30 days but no later than 45 days after submittal by the developer to the local government, the state land planning agency, and the appropriate regional planning agency, the local government shall give 15 days' notice and schedule a public hearing to consider the change that the developer asserts does not create a substantial deviation. This public hearing shall be held within *60* ~~90~~ days after submittal of the proposed changes, unless that time is extended by the developer.

4. The appropriate regional planning agency or the state land planning agency shall review the proposed change and, no later than 45 days after submittal by the developer of the proposed change, unless that time is extended by the developer, and prior to the public hearing at which the proposed change is to be considered, shall advise the local government in writing whether it objects to the proposed change, shall specify the reasons for its objection, if any, and shall provide a copy to the developer.

5. At the public hearing, the local government shall determine whether the proposed change requires further development-of-regional-impact review. The provisions of paragraphs (a) and (e), the thresholds set forth in paragraph (b), and the presumptions set forth in paragraphs (c) and (d) and subparagraph (e)3. shall be applicable in determining whether further development-of-regional-impact review is required.

6. If the local government determines that the proposed change does not require further development-of-regional-impact review and is otherwise approved, or if the proposed change is not subject to a hearing and determination pursuant to subparagraphs 3. and 5. and is otherwise approved, the local government shall issue an amendment to the development order incorporating the approved change and conditions of approval relating to the change. *The requirement that a change be otherwise approved shall not be construed to require additional local review or approval if the change is allowed by applicable local ordinances without further local review or approval.* The decision of the local government to approve, with or without conditions, or to deny the proposed change that the developer asserts does not require further review shall be subject to the appeal provisions of s. 380.07. However, the state land planning agency may not appeal the local government decision if it did not comply with subparagraph 4. The state land planning agency may not appeal a change to a development order made pursuant to subparagraph (e)1. or subparagraph (e)2. for developments of regional impact approved after January 1, 1980, unless the change would result in a significant impact to a regionally significant archaeological, historical, or natural resource not previously identified in the original development-of-regional-impact review.

(g) If a proposed change requires further development-of-regional-impact review pursuant to this section, the review shall be conducted subject to the following additional conditions:

1. The development-of-regional-impact review conducted by the appropriate regional planning agency shall address only those issues raised by the proposed change except as provided in subparagraph 2.

2. The regional planning agency shall consider, and the local government shall determine whether to approve, approve with conditions, or deny the proposed change as it relates to the entire development. If the local government determines that the proposed change, as it relates to the entire development, is unacceptable, the local government shall deny the change.

3. If the local government determines that the proposed change~~, as it relates to the entire development,~~ should be approved, any new conditions in the amendment to the development order issued by the local government shall address only those issues raised by the proposed change *and require mitigation only for the individual and cumulative impacts of the proposed change*.

4. Development within the previously approved development of regional impact may continue, as approved, during the development-of-regional-impact review in those portions of the development which are not *directly* affected by the proposed change.

(h) When further development-of-regional-impact review is required because a substantial deviation has been determined or admitted by the developer, the amendment to the development order issued by the local government shall be consistent with the requirements of subsection (15) and shall be subject to the hearing and appeal provisions of s. 380.07. The state land planning agency or the appropriate regional planning agency need not participate at the local hearing in order to appeal a local government development order issued pursuant to this paragraph.

(i) An increase in the number of residential dwelling units shall not constitute a substantial deviation and shall not be subject to development-of-regional-impact review for additional impacts provided that all the residential dwelling units are dedicated to affordable workforce housing, subject to a recorded land use restriction, which includes resale provisions. For purposes of this paragraph, the term "affordable workforce housing" means housing that is affordable to a person who earns less than 120 percent of the area median income, or less than 140 percent of the area median income if located in a county in which the median purchase price for a single-family existing home exceeds the statewide median purchase price of a single-family existing home. For purposes of this paragraph, the term "statewide median purchase price of a single-family existing home" means the statewide purchase price as determined in the Florida Sales Report, Single-Family Existing Homes, released each January by the Florida Association of Realtors and the University of Florida Real Estate Research Center.

(24) STATUTORY EXEMPTIONS.—

(a) Any proposed hospital ~~which has a designed capacity of not more than 100 beds~~ is exempt from the provisions of this section.

(b) Any proposed electrical transmission line or electrical power plant is exempt from the provisions of this section~~, except any steam or solar electrical generating facility of less than 50 megawatts in capacity attached to a development of regional impact~~.

(c) Any proposed addition to an existing sports facility complex is exempt from the provisions of this section if the addition meets the following characteristics:

1. It would not operate concurrently with the scheduled hours of operation of the existing facility.

2. Its seating capacity would be no more than 75 percent of the capacity of the existing facility.

3. The sports facility complex property is owned by a public body prior to July 1, 1983.

This exemption does not apply to any pari-mutuel facility.

(d) Any proposed addition or cumulative additions subsequent to July 1, 1988, to an existing sports facility complex owned by a state university is exempt if the increased seating capacity of the complex is no more than 30 percent of the capacity of the existing facility.

(e) Any addition of permanent seats or parking spaces for an existing sports facility located on property owned by a public body prior to July 1, 1973, is exempt from the provisions of this section if future additions do not expand existing permanent seating or parking capacity more than 15 percent annually in excess of the prior year's capacity.

(f) Any increase in the seating capacity of an existing sports facility having a permanent seating capacity of at least 50,000 spectators is exempt from the provisions of this section, provided that such an increase does not increase permanent seating capacity by more than 5 percent per year and not to exceed a total of 10 percent in any 5-year period, and provided that the sports facility notifies the appropriate local government within which the facility is located of the increase at least 6 months prior to the initial use of the increased seating, in order to permit the appropriate local government to develop a traffic management plan for the traffic generated by the increase. Any traffic management plan shall be consistent with the local comprehensive plan, the regional policy plan, and the state comprehensive plan.

(g) Any expansion in the permanent seating capacity or additional improved parking facilities of an existing sports facility is exempt from the provisions of this section, if the following conditions exist:

c. The increase in additional improved parking facilities is a one-time addition and does not exceed 3,500 parking spaces serving the sports facility; and

2. The local government having jurisdiction of the sports facility includes in the development order or development permit approving such expansion under this paragraph a finding of fact that the proposed expansion is consistent with the transportation, water, sewer and stormwater drainage provisions of the approved local comprehensive plan and local land development regulations relating to those provisions.

Any owner or developer who intends to rely on this statutory exemption shall provide to the department a copy of the local government application for a development permit. Within 45 days of receipt of the application, the department shall render to the local government an advisory and nonbinding opinion, in writing, stating whether, in the department's opinion, the prescribed conditions exist for an exemption under this paragraph. The local government shall render the development order approving each such expansion to the department. The owner, developer, or department may appeal the local government development order pursuant to s. 380.07, within 45 days after the order is rendered. The scope of review shall be limited to the determination of whether the conditions prescribed in this paragraph exist. If any sports facility expansion undergoes development of regional impact review, all previous expansions which were exempt under this paragraph shall be included in the development of regional impact review.

(h) Expansion to port harbors, spoil disposal sites, navigation channels, turning basins, harbor berths, and other related inwater harbor facilities of ports listed in s. 403.021(9)(b), port transportation facilities and projects listed in s. 311.07(3)(b), and intermodal transportation facilities identified pursuant to s. 311.09(3) are exempt from the provisions of this section when such expansions, projects, or facilities are consistent with comprehensive master plans that are in compliance with the provisions of s. 163.3178.

(i) Any proposed facility for the storage of any petroleum product or any expansion of an existing facility is exempt from the provisions of this section~~, if the facility is consistent with a local comprehensive plan that is in compliance with s. 163.3177 or is consistent with a comprehensive port master plan that is in compliance with s. 163.3178~~.

(j) Any renovation or redevelopment within the same land parcel which does not change land use or increase density or intensity of use.

(k)~~1.~~ *Waterport and marina development, including dry storage facilities, are exempt from the provisions of this section* ~~Any waterport or marina development is exempt from the provisions of this section if the relevant county or municipality has adopted a boating facility siting plan or policy which includes applicable criteria, considering such factors as natural resources, manatee protection needs and recreation and economic demands as generally outlined in the Bureau of Protected Species Management Boat Facility Siting Guide, dated August 2000, into the coastal management or land use element of its comprehensive plan. The adoption of boating facility siting plans or policies into the comprehensive plan is exempt from the provisions of s. 163.3187(1). Any waterport~~

~~or marina development within the municipalities or counties with boating facility siting plans or policies that meet the above criteria, adopted prior to April 1, 2002, are exempt from the provisions of this section, when their boating facility siting plan or policy is adopted as part of the relevant local government's comprehensive plan.~~

~~2. Within 6 months of the effective date of this law, The Department of Community Affairs, in conjunction with the Department of Environmental Protection and the Florida Fish and Wildlife Conservation Commission, shall provide technical assistance and guidelines, including model plans, policies and criteria to local governments for the development of their siting plans~~.

(l) Any proposed development within an urban service boundary established under s. 163.3177(14) is exempt from the provisions of this section if the local government having jurisdiction over the area where the development is proposed has adopted the urban service boundary, ~~and~~ has entered into a binding agreement with ~~adjacent~~ jurisdictions *that would be impacted* and *with* the Department of Transportation regarding the mitigation of impacts on state and regional transportation facilities, and has adopted a proportionate share methodology pursuant to s. 163.3180(16).

(m) Any proposed development within a rural land stewardship area created under s. 163.3177(11)(d) is exempt from the provisions of this section if the local government that has adopted the rural land stewardship area has entered into a binding agreement with jurisdictions that would be impacted and the Department of Transportation regarding the mitigation of impacts on state and regional transportation facilities, and has adopted a proportionate share methodology pursuant to s. 163.3180(16).

(p) Any self-storage warehousing that does not allow retail or other services is exempt from this section.

(q) Any proposed nursing home or assisted living facility is exempt from this section.

(r) Any development identified in an airport master plan and adopted into the comprehensive plan pursuant to s. 163.3177(6)(k) is exempt from this section.

(s) Any development identified in a campus master plan and adopted pursuant to s. 1013.30 is exempt from this section.

(t) Any development in a specific area plan which is prepared pursuant to s. 163.3245 and adopted into the comprehensive plan is exempt from this section.

If a use is exempt from review as a development of regional impact under paragraphs (a)-(t) but will be part of a larger project that is subject to review as a development of regional impact, the impact of the exempt use must be included in the review of the larger project.

(28) PARTIAL STATUTORY EXEMPTIONS.—

(a) If the binding agreement referenced under paragraph (24)(l) for urban service boundaries is not entered into within 12 months after establishment of the urban service boundary, the development-of-regional-impact review for projects within the urban service boundary must address transportation impacts only.

(b) If the binding agreement referenced under paragraph (24)(m) for rural land stewardship areas is not entered into within 12 months after the designation of a rural land stewardship area, the development-of-regional-impact review for projects within the rural land stewardship area must address transportation impacts only.

(c) If the binding agreement referenced under paragraph (24)(n) for designated urban infill and redevelopment areas is not entered into within 12 months after the designation of the area or July 1, 2007, whichever occurs later, the development-of-regional-impact review for projects within the urban infill and redevelopment area must address transportation impacts only.

(d) A local government that does not wish to enter into a binding agreement or that is unable to agree on the terms of the agreement referenced under paragraph (24)(l), paragraph (24)(m), or paragraph (24)(n) shall provide written notification to the state land planning agency of the decision to not enter into a binding agreement or the failure to enter into a binding agreement within the 12-month period referenced in paragraphs (a), (b) and (c). Following the notification of the state land planning agency, development-of-regional-impact review for projects within an urban service boundary under paragraph (24)(l), a rural land stewardship area under paragraph (24)(m), or an urban infill and redevelopment area under paragraph (24)(n), must address transportation impacts only.

(e) The vesting provision of s. 163.3167(8) relating to an authorized development of regional impact shall not apply to those projects partially exempt from the development-of-regional-impact review process under paragraphs (a)-(d).

Section 7. Paragraphs (d) and (e) of subsection (3) of section 380.0651, Florida Statutes, are amended, paragraphs (f) through (i) are redesignated as paragraphs (e) through (h), respectively, paragraph (j) is redesignated as paragraph (i) and amended, and a new paragraph (j) is added to that subsection, to read:

380.0651 Statewide guidelines and standards.—

(3) The following statewide guidelines and standards shall be applied in the manner described in s. 380.06(2) to determine whether the following developments shall be required to undergo development-of-regional-impact review:

(d) Office development.—Any proposed office building or park operated under common ownership, development plan, or management that:

1. Encompasses 300,000 or more square feet of gross floor area; or

2. Encompasses more than 600,000 square feet of gross floor area in a county with a population greater than 500,000 and only in a geographic area specifically designated as highly suitable for increased threshold intensity in the approved local comprehensive plan ~~and in the strategic regional policy plan~~.

~~(e) Port facilities.—The proposed construction of any waterport or marina is required to undergo development-of-regional-impact review, except one designed for:~~

~~1.a. The wet storage or mooring of fewer than 150 watercraft used exclusively for sport, pleasure, or commercial fishing, or~~

~~b. The dry storage of fewer than 200 watercraft used exclusively for sport, pleasure, or commercial fishing, or~~

~~c. The wet or dry storage or mooring of fewer than 150 watercraft on or adjacent to an inland freshwater lake except Lake Okeechobee or any lake which has been designated an Outstanding Florida Water, or~~

~~d. The wet or dry storage or mooring of fewer than 50 watercraft of 40 feet in length or less of any type or purpose. The exceptions to this paragraph's requirements for development-of-regional-impact review shall not apply to any waterport or marina facility located within or which serves physical development located within a coastal barrier resource unit on an unbridged barrier island designated pursuant to 16 U.S.C. s. 3501.~~

~~In addition to the foregoing, for projects for which no environmental resource permit or sovereign submerged land lease is required, the Department of Environmental Protection must determine in writing that a proposed marina in excess of 10 slips or storage spaces or a combination of the two is located so that it will not adversely impact Outstanding Florida Waters or Class II waters and will not contribute boat traffic in a manner that will have an adverse impact on an area known to be, or likely to be, frequented by manatees. If the Department of Environmental Protection fails to issue its determination within 45 days of receipt~~

~~of a formal written request, it has waived its authority to make such determination. The Department of Environmental Protection determination shall constitute final agency action pursuant to chapter 120.~~

~~2. The dry storage of fewer than 300 watercraft used exclusively for sport, pleasure, or commercial fishing at a marina constructed and in operation prior to July 1, 1985.~~

~~3. Any proposed marina development with both wet and dry mooring or storage used exclusively for sport, pleasure, or commercial fishing, where the sum of percentages of the applicable wet and dry mooring or storage thresholds equals 100 percent. This threshold is in addition to, and does not preclude, a development from being required to undergo development-of-regional-impact review under sub-subparagraphs 1.a. and b. and subparagraph 2.~~

(i)~~(j)~~ Residential development.—No rule may be adopted concerning residential developments which treats a residential development in one county as being located in a less populated adjacent county unless more than 25 percent of the development is located within 2 or less miles of the less populated adjacent county. *The residential thresholds of adjacent counties with less population and a lower threshold shall not be controlling on any development wholly located within a municipality in a rural county of economic concern.*

(j) Workforce housing.—The applicable guidelines for residential development and the residential component for multiuse development shall be increased by 50 percent where the developer demonstrates that at least 15 percent of the total residential dwelling units authorized within the development of regional impact will be dedicated to affordable workforce housing, subject to a recorded land use restriction, which includes resale provisions and provisions for the workforce housing to be commenced prior to the completion of 50 percent of the market rate dwelling. For purposes of this paragraph, the term "affordable workforce housing" means housing that is affordable to a person who earns less than 120 percent of the area median income, or less than 140 percent of the area median income if located in a county in which the median purchase price for a single-family existing home exceeds the statewide median purchase price of a single-family existing home. For the purposes of this paragraph, the term "statewide median purchase price of a single-family existing home" means the statewide purchase price as determined in the Florida Sales Report, Single-Family Existing Homes, released each January by the Florida Association of Realtors and the University of Florida Real Estate Research Center.

Section 8. Section 380.07, Florida Statutes, is amended to read:

380.07 Florida Land and Water Adjudicatory Commission.—

(1) There is hereby created the Florida Land and Water Adjudicatory Commission, which shall consist of the Administration Commission. The commission may adopt rules necessary to ensure compliance with the area of critical state concern program and the requirements for developments of regional impact as set forth in this chapter.

(2) Whenever any local government issues any development order in any area of critical state concern, or in regard to any development of regional impact, copies of such orders as prescribed by rule by the state land planning agency shall be transmitted to the state land planning agency, the regional planning agency, and the owner or developer of the property affected by such order. The state land planning agency shall adopt rules describing development order rendition and effectiveness in designated areas of critical state concern. Within 45 days after the order is rendered, the owner, the developer, or the state land planning agency may appeal the order to the Florida Land and Water Adjudicatory Commission by filing a *petition alleging that the development order is not consistent with the provisions of this part* ~~notice of appeal with the commission~~. The appropriate regional planning agency by vote at a regularly scheduled meeting may recommend that the state land planning agency undertake an appeal of a development-of-regional-impact development order. Upon the request of an appropriate regional planning council, affected local government, or any citizen, the state land planning agency shall consider whether to appeal the order and shall respond to the request within the 45-day appeal period. ~~Any appeal taken by a regional planning agency between March 1, 1993, and the effective date of this section may only be continued if the state land planning agency has also filed an appeal. Any appeal initiated by a regional planning agency on or before March 1, 1993, shall continue until completion of the appeal process and any subsequent appellate review, as if the regional planning agency were authorized to initiate the appeal.~~

(3) Notwithstanding any other provision of law, an appeal of a development order by the state land planning agency under this section may include consistency of the development order with the local comprehensive plan. However, if a development order relating to a development of regional impact has been challenged in a proceeding under s. 163.3215 and a party to the proceeding serves notice to the state land planning agency of the pending proceeding under s. 163.3215, the state land planning agency shall:

(a) Raise its consistency issues by intervening as a full party in the pending proceeding under s. 163.3215 within 30 days after service of the notice; and

(b) Dismiss the consistency issues from the development order appeal.

(4) The appellant shall furnish a copy of the petition to the opposing party, as the case may be, and to the local government that issued the order. The filing of the petition stays the effectiveness of the order until after the completion of the appeal process.

(5)~~(3)~~ The 45-day appeal period for a development of regional impact within the jurisdiction of more than one local government shall not commence until after all the local governments having jurisdiction over the proposed development of regional impact have rendered their development orders. The appellant shall furnish a copy of the notice of appeal to the opposing party, as the case may be, and to the local government which issued the order. The filing of the notice of appeal shall stay the effectiveness of the order until after the completion of the appeal process.

(6)~~(4)~~ Prior to issuing an order, the Florida Land and Water Adjudicatory Commission shall hold a hearing pursuant to the provisions of chapter 120. The commission shall encourage the submission of appeals on the record made below in cases in which the development order was issued after a full and complete hearing before the local government or an agency thereof.

(7)~~(5)~~ The Florida Land and Water Adjudicatory Commission shall issue a decision granting or denying permission to develop pursuant to the standards of this chapter and may attach conditions and restrictions to its decisions.

(8)~~(6)~~ If an appeal is filed with respect to any issues within the scope of a permitting program authorized by chapter 161, chapter 373, or chapter 403 and for which a permit or conceptual review approval has been obtained prior to the issuance of a development order, any such issue shall be specifically identified in the notice of appeal which is filed pursuant to this section, together with other issues which constitute grounds for the appeal. The appeal may proceed with respect to issues within the scope of permitting programs for which a permit or conceptual review approval has been obtained prior to the issuance of a development order only after the commission determines by majority vote at a regularly scheduled commission meeting that statewide or regional interests may be adversely affected by the development. In making this determination, there shall be a rebuttable presumption that statewide and regional interests relating to issues within the scope of the permitting programs for which a permit or conceptual approval has been obtained are not adversely affected.

Section 9. Section 380.115, Florida Statutes, is amended to read:

380.115 Vested rights and duties; effect of *size reduction, changes in guidelines and standards* ~~chs. 2002-20 and 2002-296~~.—

(1) *A change in a development-of-regional-impact guideline and standard does not abridge* ~~Nothing contained in this act abridges~~ or *modify* ~~modifies~~ any vested or other right or any duty or obligation pursuant to any development order or agreement that is applicable to a development of regional impact ~~on the effective date of this act~~. A development that has received a development-of-regional-impact development order pursuant to s. 380.06, but is no longer required to undergo development-of-regional-impact review by operation *of a change in the guidelines and standards or has reduced its size below the thresholds in s. 380.0651* ~~of this act~~, shall be governed by the following procedures:

(a) The development shall continue to be governed by the development-of-regional-impact development order and may be completed in

reliance upon and pursuant to the development order *unless the developer or landowner has followed the procedures for rescission in paragraph (b). Any proposed changes to those developments which continue to be governed by a development order shall be approved pursuant to s. 380.06(19) as it existed prior to a change in the development-of-regional-impact guidelines and standards except that all percentage criteria shall be doubled and all other criteria shall be increased by 10 percent*. The development-of-regional-impact development order may be enforced by the local government as provided by ss. 380.06(17) and 380.11.

(b) If requested by the developer or landowner, the development-of-regional-impact development order *shall* ~~may~~ be *rescinded by the local government having jurisdiction upon a showing that all required mitigation related to the amount of development that existed on the date of rescission has been completed* ~~abandoned pursuant to the process in s. 380.06(26)~~.

(2) A development with an application for development approval pending, ~~and determined sufficient~~ pursuant to *s. 380.06* ~~s. 380.06(10)~~, on the effective date of *a change to the guidelines and standards* ~~this act~~, or a notification of proposed change pending on the effective date of *a change to the guidelines and standards* ~~this act~~, may elect to continue such review pursuant to s. 380.06. At the conclusion of the pending review, including any appeals pursuant to s. 380.07, the resulting development order shall be governed by the provisions of subsection (1).

(3) A landowner that has filed an application for a development-of-regional-impact review prior to the adoption of an optional sector plan pursuant to s. 163.3245 may elect to have the application reviewed pursuant to s. 380.06, comprehensive plan provisions in force prior to adoption of the sector plan, and any requested comprehensive plan amendments that accompany the application.

(a) Twenty percent of the total funds collected under this subsection *during the state fiscal year* shall be distributed to verified trauma centers ~~located in a region~~ that *have* ~~has~~ a local funding contribution as of December 31. (3) A hospital receiving startup grant funding that does not become a provisional trauma center within 24 months after submitting an application to become a trauma center must forfeit any state grant funds received pursuant to this section.

(4) A hospital that receives startup grant funding may not receive more than $500,000, must ensure that the startup grant funding is matched on a dollar-for-dollar basis with a local funding contribution, and shall receive startup grant funding only one time.

Section 18. This act shall take effect October 1, 2006, except that section 395.41, Florida Statutes, as created by this act, shall take effect subject to an appropriation for the trauma center startup grant program in the 2006-2007 General Appropriations Act.

Section 9. Subsection (1) of section 1006.22, Florida Statutes, is amended to read:

1006.22 Safety and health of students being transported.—Maximum regard for safety and adequate protection of health are primary requirements that must be observed by district school boards in routing buses, appointing drivers, and providing and operating equipment, in accordance with all requirements of law and rules of the State Board of Education in providing transportation pursuant to s. 1006.21:

(1)*(a)* District school boards shall use school buses, as defined in s. 1006.25, for all regular transportation. Regular transportation or regular use means transportation of students to and from school or school-related activities that are part of a scheduled series or sequence of events to the same location. "Students" means, for the purposes of this section, students enrolled in the public schools in prekindergarten disability programs and in kindergarten through grade 12. District school boards may regularly use motor vehicles other than school buses only under the following conditions:

1.~~(a)~~ When the transportation is for physically handicapped or isolated students and the district school board has elected to provide for the transportation of the student through written or oral contracts or agreements.

2.~~(b)~~ When the transportation is a part of a comprehensive contract for a specialized educational program between a district school board and a service provider who provides instruction, transportation, and other services.

3.~~(c)~~ When the transportation is provided through a public transit system.

4.~~(d)~~ *When the transportation is for trips to and from school sites or agricultural education sites or for trips to and from agricultural education-related events or competitions, but is not for customary transportation between a student's residence and such sites.* ~~When the transportation of students is necessary or practical in a motor vehicle owned or operated by a district school board other than a school bus, such transportation must be provided in designated seating positions in a passenger car not to exceed 8 students or in a multipurpose passenger vehicle designed to transport 10 or fewer persons which meets all applicable federal motor vehicle safety standards. Multipurpose passenger vehicles classified as utility vehicles with a wheelbase of 110 inches or less which are required by federal motor vehicle standards to display a rollover warning label may not be used.~~

~~When students are transported in motor vehicles, the occupant crash protection system provided by the vehicle manufacturer must be used unless the student's physical condition prohibits such use.~~

(b) When the transportation of students is provided, as authorized in this subsection, in a vehicle other than a school bus that is owned, operated, rented, contracted, or leased by a school district or charter school, the following provisions shall apply:

1. The vehicle must be a passenger car or multipurpose passenger vehicle or truck, as defined in Title 49 C.F.R. part 571, designed to transport fewer than 10 students. Students must be transported in designated seating positions and must use the occupant crash protection system provided by the manufacturer unless the student's physical condition prohibits such use.

2. An authorized vehicle may not be driven by a student on a public right-of-way. An authorized vehicle may be driven by a student on school or private property as part of the student's educational curriculum if no other student is in the vehicle.

3. The driver of an authorized vehicle transporting students must maintain a valid driver's license and must comply with the requirements of the school district's locally adopted safe driver plan, which includes review of driving records for disqualifying violations.

4. The district school board or charter school must adopt a policy that addresses procedures and liability for trips under this paragraph, including a provision that school buses are to be used whenever practical and specifying consequences for violation of the policy.

MOTION

On motion by Senator Sebesta, the rules were waived to allow the following amendment to be considered:

Senator Sebesta moved the following amendment:

Amendment 1 (220694)(with title amendment)—Delete everything after the enacting clause and insert:

Section 1. Section 207.008, Florida Statutes, is amended to read:

207.008 Retention of records by motor carrier.—Each registered motor carrier shall maintain and keep pertinent records and papers as may be required by the department for the reasonable administration of this chapter and shall preserve *the records upon which each quarterly tax return is based for 4 years following the due date or filing date of the return, whichever is later* ~~such records as long as required by s. 213.35~~.

Section 2. Section 207.021, Florida Statutes, is amended to read:

207.021 *Informal conferences;* settlement or compromise of *taxes,* penalties*,* or interest.—

(1)(a) The department may adopt rules for establishing informal conferences for the resolution of disputes arising from the assessment of taxes, penalties, or interest or the denial of refunds under chapter 120.

(b) During any proceeding arising under this section, the motor carrier has the right to be represented and to record all procedures at the motor carrier's expense.

(2)(a) The executive director or his or her designee may enter into a closing agreement with a taxpayer settling or compromising the taxpayer's liability for any tax, interest, or penalty assessed under this chapter. Each agreement must be in writing, in the form of a closing agreement approved by the department, and signed by the executive director or his or her designee. The agreement is final and conclusive, except upon a showing of material fraud or misrepresentation of material fact. The department may not make an additional assessment against the taxpayer for the tax, interest, or penalty specified in the closing agreement for the time specified in the closing agreement, and the taxpayer may not institute a judicial or administrative proceeding to recover any tax, interest, or penalty paid pursuant to the closing agreement. The executive director of the department or his or her designee may approve the closing agreement.

(b) Notwithstanding paragraph (a), for the purpose of settling and compromising the liability of a taxpayer for any tax or interest on the grounds of doubt as to liability based on the taxpayer's reasonable reliance on a written determination issued by the department, the department may compromise the amount of the tax or interest resulting from such reasonable reliance.

(3) A taxpayer's liability for any tax or interest specified in this chapter may be compromised by the department upon the grounds of doubt as to liability for or the collectibility of such tax or interest. Doubt as to the liability of a taxpayer for tax and interest exists if the taxpayer demonstrates that he or she reasonably relied on a written determination of the department.

(4) A taxpayer's liability for any tax or interest under this chapter shall be settled or compromised in whole or in part whenever or to the extent allowable under the Articles of Agreement of the International Fuel Tax Agreement.

(5) A taxpayer's liability for penalties under this chapter may be settled or compromised if it is determined by the department that the noncompliance is due to reasonable cause and not willful negligence, willful neglect, or fraud.

(6) The department may enter into an agreement for scheduling payments of any tax, penalty, or interest owed to the department as a result of an audit assessment issued under this chapter. ~~The department may settle or compromise, pursuant to s. 213.21, penalties or interest imposed under this chapter.~~

Section 3. Effective July 1, 2008, section 261.10, Florida Statutes, is amended to read:

261.10 Criteria for recreation areas and trails*; limitation on liability*.—

(1) Publicly owned or operated off-highway vehicle recreation areas and trails shall be designated and maintained for recreational travel by off-highway vehicles. These areas and trails need not be generally suitable or maintained for normal travel by conventional two-wheel-drive vehicles and should not be designated as recreational footpaths. State off-highway vehicle recreation areas and trails must be selected and managed in accordance with this chapter.

(2) State agencies, water management districts, counties, and municipalities, and officers and employees thereof, which provide off-highway recreation areas and trails on publicly owned land are not liable for damage to personal property or personal injury or death to any person resulting from participation in the inherently dangerous risks of off-highway vehicle recreation. This subsection does not limit liability that would otherwise exist for an act of negligence by a state agency, water management district, county, or municipality, or officer or employee thereof, which is the proximate cause of the damage, injury, or death. Nothing in this subsection creates a duty of care or basis of liability for death, personal injury, or damage to personal property, nor shall anything in this subsection be deemed to be a waiver of sovereign immunity under any circumstances.

Section 4. Effective July 1, 2008, section 261.20, Florida Statutes, is created to read:

261.20 Operations of off-highway vehicles on public lands; restrictions; safety courses; required equipment; prohibited acts; penalties.--

(1) This section applies only to the operation of off-highway vehicles on public lands.

(2) Any person operating an off-highway vehicle as permitted in this section who has not attained 16 years of age must be supervised by an adult while operating the off-highway vehicle.

(3) Effective July 1, 2008, while operating an off-highway vehicle, a person who has not attained 16 years of age must have in his or her possession a certificate evidencing the satisfactory completion of an approved off-highway vehicle safety course in this state or another jurisdiction. A nonresident who has not attained 16 years of age and who is in this state temporarily for a period not to exceed 30 days is exempt from this subsection. Nothing contained in this chapter shall prohibit an agency from requiring additional safety-education courses for all operators.

(4)(a) The department shall approve all off-highway vehicle public safety-education programs required by this chapter as a condition for operating on public lands.

(b) An off-highway vehicle must be equipped with a spark arrester that is approved by the United States Department of Agriculture Forest Service, a braking system, and a muffler, all in operating condition.

(c) On and after July 1, 2008, off-highway vehicles, when operating pursuant to this chapter, shall be equipped with a silencer or other device which limits sound emissions. Exhaust noise must not exceed 96 decibels in the A-weighting scale for vehicles manufactured after January 1, 1986, or 99 decibels in the A-weighting scale for vehicles manufactured before January 1, 1986, when measured from a distance of 20 inches using test procedures established by the Society of Automotive Engineers under Standard J-1287. Off-highway vehicle manufacturers or their agents prior to the sale to the general public in this state of any new off-highway vehicle model manufactured after January 1, 2008, shall provide to the department revolutions-per-minute data needed to conduct the J-1287 test, where applicable.

(d) An off-highway vehicle that is operated between sunset and sunrise, or when visibility is reduced because of rain, smoke, or smog, must display a lighted headlamp and taillamp unless the use of such lights is prohibited by other laws, such as a prohibition on the use of lights when hunting at night.

(e) An off-highway vehicle that is used in certain organized and sanctioned competitive events being held on a closed course may be exempted by departmental rule from any equipment requirement in this subsection.

(5) It is a violation of this section:

(a) To carry a passenger on an off-highway vehicle, unless the machine is specifically designed by the manufacturer to carry an operator and a single passenger.

(b) To operate an off-highway vehicle while under the influence of alcohol, a controlled substance, or any prescription or over-the-counter drug that impairs vision or motor condition.

(c) For a person who has not attained 16 years of age, to operate an off-highway vehicle without wearing eye protection, over-the-ankle boots, and a safety helmet that is approved by the United States Department of Transportation or Snell Memorial Foundation.

(d) To operate an off-highway vehicle in a careless or reckless manner that endangers or causes injury or damage to another person or property.

(6) Any person who violates this section commits a noncriminal infraction and is subject to a fine of not less than $100, and may have his or her privilege to operate an ATV on public lands revoked. However, a person who commits such acts with intent to defraud, or who commits a second or subsequent violation, is subject to a fine of not less than $500 and may have his or her privilege to operate an ATV on public lands revoked.

(7) Public land managing agencies, through the course of their management activities, are exempt from the provisions of subsection (5)(a).

Section 5. Subsection (43) of section 316.003, Florida Statutes, is amended to read:

316.003 Definitions.—The following words and phrases, when used in this chapter, shall have the meanings respectively ascribed to them in this section, except where the context otherwise requires:

(43) SADDLE MOUNT*; FULL MOUNT*.—An arrangement whereby the front wheels of one vehicle rest in a secured position upon another vehicle. (b) A municipality may exercise jurisdiction over any private road or roads, or over any limited access road or roads owned or controlled by a special district, located within its boundaries if the municipality and party or parties owning or controlling such road or roads provide, by written agreement approved by the governing body of the municipality, for municipal traffic control jurisdiction over the road or roads encompassed by such agreement. Pursuant thereto:

1. Provision for reimbursement for actual costs of traffic control and enforcement and for liability insurance and indemnification by the party or parties, and such other terms as are mutually agreeable, may be included in such an agreement.

The exercise of jurisdiction provided for herein shall be in addition to jurisdictional authority presently exercised by municipalities under law, and nothing in this paragraph shall be construed to limit or remove any such jurisdictional authority. Such jurisdiction includes regulation of access to such road or roads by security devices or personnel.

3. Any such agreement may provide for the installation of multiparty stop signs by the parties controlling the roads covered by the agreement if a determination is made by such parties that the signage will enhance traffic safety. Multiparty stop signs must conform to the manual and specifications of the Department of Transportation; however, minimum traffic volumes may not be required for the installation of such signage. Enforcement for the signs shall be as provided in s. 316.123.

4. Any such agreement may provide for the installation of multiparty stop signs by the parties controlling the roads covered by the agreement if a determination is made by such parties that the signage will enhance traffic safety. Section 7. Section 316.0085, Florida Statutes, is amended to read:

316.0085 Skateboarding; inline skating; freestyle *or mountain and off-road* bicycling; paintball; definitions; liability.—

(1) The purpose of this section is to encourage governmental owners or lessees of property to make land available to the public for skateboarding, inline skating, paintball, and freestyle *or mountain and off-road* bicycling. It is recognized that governmental owners or lessees of property have failed to make property available for such activities because of the exposure to liability from lawsuits and the prohibitive cost of insurance, if insurance can be obtained for such activities. It is also recognized that risks and dangers are inherent in these activities, which risks and dangers should be assumed by those participating in such activities.

(2) As used in this section, the term:

(a) "Governmental entity" means:

1. The United States, the State of Florida, any county or municipality, or any department, agency, or other instrumentality thereof.

2. Any school board, special district, authority, or other entity exercising governmental authority.

(b) "Inherent risk" means those dangers or conditions that are characteristic of, intrinsic to, or an integral part of skateboarding, inline skating, paintball, and freestyle *or mountain and off-road* bicycling.

(3) This section does not grant authority or permission for a person to engage in skateboarding, inline skating, paintball, or freestyle *or mountain and off-road* bicycling on property owned or controlled by a governmental entity unless such governmental entity has specifically designated such area for skateboarding, inline skating, paintball, or freestyle *or mountain and off-road* bicycling. Each governmental entity shall post a rule in each specifically designated area that identifies all authorized activities and indicates that a child under 17 years of age may not engage in any of those activities until the governmental entity has obtained written consent, in a form acceptable to the governmental entity, from the child's parents or legal guardians.

(4) A governmental entity or public employee is not liable to any person who voluntarily participates in skateboarding, inline skating, paintball, or freestyle *or mountain and off-road* bicycling for any damage or injury to property or persons which arises out of a person's participation in such activity, and which takes place in an area designated for such activity.

(5) This section does not limit liability that would otherwise exist for any of the following:

(a) The failure of the governmental entity or public employee to guard against or warn of a dangerous condition of which a participant does not and cannot reasonably be expected to have notice.

(b) An act of gross negligence by the governmental entity or public employee that is the proximate cause of the injury.

(c) The failure of a governmental entity that provides a designated area for skateboarding, inline skating, paintball, or freestyle *or mountain and off-road* bicycling to obtain the written consent, in a form acceptable to the governmental entity, from the parents or legal guardians of any child under 17 years of age before authorizing such child to participate in skateboarding, inline skating, paintball, or freestyle *or mountain and off-road* bicycling in such designated area, unless that child's participation is in violation of posted rules governing the authorized use of the designated area*, except that a parent or legal guardian must demonstrate that written consent to engage in mountain or off-road bicycling in a designated area was provided to the governmental entity before entering the designated area*.

Nothing in this subsection creates a duty of care or basis of liability for death, personal injury, or damage to personal property. Nothing in this section shall be deemed to be a waiver of sovereign immunity under any circumstances.

(6) Nothing in this section shall limit the liability of an independent concessionaire, or any person or organization other than a governmental entity or public employee, whether or not the person or organization has a contractual relationship with a governmental entity to use the public property, for injuries or damages suffered in any case as a result of the operation of skateboards, inline skates, paintball equipment, or freestyle *or mountain and off-road* bicycles on public property by the concessionaire, person, or organization.

(7)(a) Any person who participates in or assists in skateboarding, inline skating, paintball, or freestyle *or mountain and off-road* bicycling assumes the known and unknown inherent risks in these activities irrespective of age, and is legally responsible for all damages, injury, or death to himself or herself or other persons or property which result from these activities. Any person who observes skateboarding, inline skating, paintball, or freestyle *or mountain or off-road* bicycling assumes the known and unknown inherent risks in these activities irrespective of age, and is legally responsible for all damages, injury, or death to himself or herself which result from these activities. A governmental entity that sponsors, allows, or permits skateboarding, inline skating, paintball, or freestyle *or mountain or off-road* bicycling on its property is not required to eliminate, alter, or control the inherent risks in these activities.

(b) While engaged in skateboarding, inline skating, paintball, or freestyle *or mountain or off-road* bicycling, irrespective of where such activities occur, a participant is responsible for doing all of the following:

1. Acting within the limits of his or her ability and the purpose and design of the equipment used.

2. Maintaining control of his or her person and the equipment used.

3. Refraining from acting in any manner which may cause or contribute to death or injury of himself or herself, or other persons.

Failure to comply with the requirements of this paragraph shall constitute negligence.

(8) The fact that a governmental entity carries insurance which covers any act described in this section shall not constitute a waiver of the protections set forth in this section, regardless of the existence or limits of such coverage.

Section 8. Subsection (2) of section 316.1001, Florida Statutes, is amended to read:

316.1001 Payment of toll on toll facilities required; penalties.—

(2)(a) For the purpose of enforcing this section, any governmental entity, as defined in s. 334.03, that owns or operates a toll facility may, by rule or ordinance, authorize a toll enforcement officer to issue a uniform traffic citation for a violation of this section. Toll enforcement officer means the designee of a governmental entity whose authority is to enforce the payment of tolls. The governmental entity may designate toll enforcement officers pursuant to s. 316.640(1).

(b) A citation issued under this subsection may be issued by mailing the citation by first class mail, or by certified mail, return receipt requested, to the address of the registered owner of the motor vehicle involved in the violation. Mailing the citation to this address constitutes notification. In the case of joint ownership of a motor vehicle, the traffic citation must be mailed to the first name appearing on the registration, unless the first name appearing on the registration is a business organization, in which case the second name appearing on the registration may be used. A citation issued under this paragraph must be mailed to the registered owner of the motor vehicle involved in the violation within 14 days after the date of issuance of the violation. In addition to the citation, notification must be sent to the registered owner of the motor vehicle involved in the violation specifying remedies available under ss. 318.14(12) and 318.18(7).

(c) The owner of the motor vehicle involved in the violation is responsible and liable for payment of a citation issued for failure to pay a toll, unless the owner can establish the motor vehicle was, at the time of the violation, in the care, custody, or control of another person. In order to establish such facts, the owner of the motor vehicle is required, within 14 days after the date of issuance of the citation, to furnish to the appropriate governmental entity an affidavit setting forth:

1. The name, address, date of birth, and, if known, the driver license number of the person who leased, rented, or otherwise had the care, custody, or control of the motor vehicle at the time of the alleged violation; or

2. If stolen, the police report indicating that the vehicle was stolen at the time of the alleged violation.

Upon receipt of an affidavit the person designated as having care, custody, and control of the motor vehicle at the time of the violation may be

issued a citation for failure to pay a required toll. The affidavit shall be admissible in a proceeding pursuant to this section for the purpose of providing that the person identified in the affidavit was in actual care, custody, or control of the motor vehicle. *The owner of a leased vehicle for which a citation is issued for failure to pay a toll is not responsible for payment of the citation and is not required to submit an affidavit as specified in this subsection if the motor vehicle involved in the violation is registered in the name of the lessee of such motor vehicle.*

(d) A written report of a toll enforcement officer to photographic evidence that a required toll was not paid is admissible in any proceeding to enforce this section and raises a rebuttable presumption that the motor vehicle named in the report or shown in the photographic evidence was used in violation of this section.

Section 9. Subsection (1) of section 316.192, Florida Statutes, is amended to read:

316.192 Reckless driving.—

Only a warning may be issued for unlawfully parking in a space designated for persons with disabilities if there is no above-grade sign as provided in s. 553.5041.

Section 35. Section 320.781, Florida Statutes, is amended to read:

320.781 Mobile Home and Recreational Vehicle Protection Trust Fund.—

(1) There is hereby established a Mobile Home and Recreational Vehicle Protection Trust Fund. The trust fund shall be administered and managed by the Department of Highway Safety and Motor Vehicles. The expenses incurred by the department in administering this section shall be paid only from appropriations made from the trust fund.

(2) Beginning October 1, 1990, the department shall charge and collect an additional fee of $1 for each new mobile home and new recreational vehicle title transaction for which it charges a fee. This additional fee shall be deposited into the trust fund. The Department of Highway Safety and Motor Vehicles shall charge a fee of $40 per annual dealer and manufacturer license and license renewal, which shall be deposited into the trust fund. The sums deposited in the trust fund shall be used exclusively for carrying out the purposes of this section. These sums may be invested and reinvested by the Chief Financial Officer under the same limitations as apply to investment of other state funds, with all interest from these investments deposited to the credit of the trust fund.

(3) The trust fund shall be used to satisfy any judgment *or claim* by any person, as provided by this section, against a mobile home or recreational vehicle dealer or broker for damages, restitution, or expenses, including reasonable attorney's fees, resulting from a cause of action directly related to the conditions of any written contract made by him or her in connection with the sale, exchange, or improvement of any mobile home or recreational vehicle, or for any violation of chapter 319 or this chapter.

(4) The trust fund shall not be liable for any judgment, or part thereof, resulting from any tort claim except as expressly provided in subsection (3), nor for any punitive, exemplary, double, or treble damages. A person, the state, or any political subdivision thereof may recover against the mobile home or recreational vehicle dealer, broker, or surety, jointly and severally, for such damages, restitution, or expenses; provided, however, that in no event shall the trust fund or the surety be liable for an amount in excess of actual damages, restitution, or expenses.

(5) Subject to the limitations and requirements of this section, the trust fund shall be used by the department to compensate persons who have unsatisfied judgments, or in certain limited circumstances unsatisfied claims, against a mobile home or recreational vehicle dealer or broker. *The following conditions must exist for a person to be eligible to file a claim against the trust fund* ~~in one of the following situations~~:

(a) The claimant has obtained a final judgment *that* ~~which~~ is unsatisfied against the mobile home or recreational vehicle dealer or broker or its surety jointly and severally, or against the mobile home dealer or broker only, if the court found that the surety was not liable due to prior payment of valid claims against the bond in an amount equal to, or greater than, the face amount of the applicable bond*; or the claimant is prohibited from filing a claim in a lawsuit because a bankruptcy proceeding is pending by the dealer or broker, and the claimant has filed a claim in that bankruptcy proceeding; or the dealer or broker has closed his or her business and cannot be found or located within the jurisdiction of the state; and*~~.~~

(b) *A claim has been made in a lawsuit against the surety and a judgment obtained is unsatisfied; a claim has been made in a lawsuit against the surety which has been stayed or discharged in a bankruptcy proceeding; or a claimant is prohibited from filing a claim in a lawsuit because a bankruptcy proceeding is pending by surety or the surety is not liable due to the prior payment of valid claims against the bond in an amount equal to, or greater than, the face amount of the applicable bond. However, a claimant may not recover against the trust fund if the claimant has recovered from the surety an amount that is equal to or greater than the total loss.* ~~The claimant has obtained a judgment against the surety of the mobile home or recreational vehicle dealer or broker that is unsatisfied.~~

~~(c) The claimant has alleged a claim against the mobile home or recreational vehicle dealer or broker in a lawsuit which has been stayed or discharged as a result of the filing for reorganization or discharge in bankruptcy by the dealer or broker, and judgment against the surety is not possible because of the bankruptcy or liquidation of the surety, or because the surety has been found by a court of competent jurisdiction not to be liable due to prior payment of valid claims against the bond in an amount equal to, or greater than, the face amount of the applicable bond.~~

(6) In order to recover from the trust fund, the person must file an application and verified claim with the department.

(a) If the claimant has obtained a judgment *that* ~~which~~ is unsatisfied against the mobile home or recreational vehicle dealer or broker or its surety as set forth in this section, the verified claim must specify the following:

1.a. That the judgment against the mobile home or recreational vehicle dealer or broker and its surety has been entered; or

b. That the judgment against the mobile home or recreational vehicle dealer or broker contains a specific finding that the surety has no liability, that execution has been returned unsatisfied, and that a judgment lien has been perfected;

2. The amount of actual damages broken down by category as awarded by the court or jury in the cause which resulted in the unsatisfied judgment, and the amount of attorney's fees set forth in the unsatisfied judgment;

3. The amount of payment or other consideration received, if any, from the mobile home or recreational vehicle dealer or broker or its surety;

4. The amount that may be realized, if any, from the sale of real or personal property or other assets of the judgment debtor liable to be sold or applied in satisfaction of the judgment and the balance remaining due on the judgment after application of the amount which has been realized and a certification that the claimant has made a good faith effort to collect the judgment; ~~and~~

5. An assignment by the claimant of rights, title, or interest in the unsatisfied judgement lien to the department; and

6.~~5.~~ Such other information as the department requires.

(b) If the claimant has alleged a claim as set forth in paragraph *(5)(a)* ~~(5)(c)~~ and for the reasons set forth therein has not been able to secure a judgment, the verified claim must contain the following:

1. A true copy of the pleadings in the lawsuit *that* ~~which~~ was stayed or discharged by the bankruptcy court and the order of the bankruptcy court staying those proceedings *or a true copy of the claim that was filed in the bankruptcy court proceedings*;

2. Allegations of the acts or omissions by the mobile home or recreational vehicle dealer or broker setting forth the specific acts or omissions complained of which resulted in actual damage to the person, along with the actual dollar amount necessary to reimburse or compensate the person for costs or expenses resulting from the acts or omissions of which the person complained;

3. True copies of all purchase agreements, notices, service or repair orders or papers or documents of any kind whatsoever which the person received in connection with the purchase, exchange, or lease-purchase of the mobile home or recreational vehicle from which the person's cause of action arises; ~~and~~

4. An assignment by the claimant of rights, title, or interest in the claim to the department; and

5.~~4.~~ Such other information as the department requires.

(c) The department may require such proof as it deems necessary to document the matters set forth in the claim.

(7) Within 90 days after receipt of the application and verified claim, the department shall issue its determination on the claim. Such determination shall not be subject to the provisions of chapter 120, but shall be reviewable only by writ of certiorari in the circuit court in the county in which the claimant resides in the manner and within the time provided by the Florida Rules of Appellate Procedure. The claim must be paid within 45 days after the determination, or, if judicial review is sought, within 45 days after the review becomes final. A person may not be paid an amount from the fund in excess of $25,000 per mobile home or recreational vehicle*, which includes any damages, restitution, payments received as the result of a claim against the surety bond, or expenses, including reasonable attorney's fees*. Prior to payment, the person must execute an assignment to the department of all the person's rights and title to, and interest in, the unsatisfied judgment and judgment lien or the claim against the dealer or broker and its surety.

(8) The department, in its discretion and where feasible, may try to recover from the mobile home or recreational vehicle dealer or broker, or the judgment debtor or its surety, all sums paid to persons from the trust fund. Any sums recovered shall be deposited to the credit of the trust fund. The department shall be awarded a reasonable attorney's fee for all actions taken to recover any sums paid to persons from the trust fund pursuant to this section.

(9) This section does not apply to any claim, and a person may not recover against the trust fund as the result of any claim, against a mobile home or recreational vehicle dealer or broker resulting from a cause of action directly related to the sale, lease-purchase, exchange, brokerage, or installation of a mobile home or recreational vehicle prior to *July 1, 2006* ~~October 1, 1990~~.

(10) Neither the department, nor the trust fund shall be liable to any person for recovery if the trust fund does not have the moneys necessary to pay amounts claimed. If the trust fund does not have sufficient assets to pay the claimant, it shall log the time and date of its determination for payment to a claimant. If moneys become available, the department shall pay the claimant whose unpaid claim is the earliest by time and date of determination.

(11) It is unlawful for any person or his or her agent to file any notice, statement, or other document required under this section which is false or contains any material misstatement of fact. Any person who violates this subsection is guilty of a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

The failure of the officer to submit materials within the 5-day period specified in this subsection and in subsection (1) *does* ~~shall~~ not affect the department's ability to consider any evidence submitted at or prior to the hearing. The officer may also submit a copy of a videotape of the field sobriety test or the attempt to administer such test. *Materials submitted to the department by a law enforcement agency or correctional agency shall be considered self-authenticating and shall be in the record for consideration by the hearing officer. Notwithstanding s. 316.066(4), the crash report shall be considered by the hearing officer.*

(3) If the department determines that the license ~~of the person arrested~~ should be suspended pursuant to this section and if the notice of suspension has not already been served upon the person by a law enforcement officer or correctional officer as provided in subsection (1), the department shall issue a notice of suspension and, unless the notice is mailed pursuant to s. 322.251, a temporary permit *that* ~~which~~ expires 10 days after the date of issuance if the driver is otherwise eligible.

(6)(a) If the person *whose license was suspended* ~~arrested~~ requests a formal review, the department must schedule a hearing to be held within 30 days after such request is received by the department and must notify the person of the date, time, and place of the hearing.

(b) Such formal review hearing shall be held before a hearing officer employed by the department, and the hearing officer shall be authorized to administer oaths, examine witnesses and take testimony, receive relevant evidence, issue subpoenas *for the officers and witnesses identified in documents in subsection (2)*, regulate the course and conduct of the hearing, *question witnesses,* and make a ruling on the suspension. The ~~department and the person arrested may subpoena witnesses, and the~~ party requesting the presence of a witness shall be responsible for the payment of any witness fees and for notifying in writing the state attorney's office in the appropriate circuit of the issuance of the subpoena. If the person who requests a formal review hearing fails to appear and the hearing officer finds such failure to be without just cause, the right to a formal hearing is waived and the suspension shall be sustained.

(c) A party may seek enforcement of a subpoena under paragraph (b) by filing a petition for enforcement in the circuit court of the judicial circuit in which the person failing to comply with the subpoena resides. A failure to comply with an order of the court shall result in a finding of contempt of court. However, a person *is* ~~shall~~ not ~~be~~ in contempt while a subpoena is being challenged.
